outcomes of our new qualifications and should be useful aids in helping students understand the complexities of marketing. The discussion and practical application of theories and concepts with relevant examples and case studies should help readers make immediate use of their knowledge and skills gained from the qualifications. Professor Keith Fletcher, Director of Education, The Chartered Institute of Marketing, Here in Dubai, we have used the Butterworth Heinemann Coursebooks in their various forms since the very beginning and have found them most useful as a source of recommended reading material as well as examination preparation. Alun Epps, CIM Centre Coordinator, Dubai University College, United Arab Emirates. Butterworth Heinemann's official CIM Coursebooks are the definitive companions to the CIM professional marketing qualifications. The only study materials to be endorsed by The Chartered Institute of Marketing, CIM, all content is carefully structured to match the syllabus and is written in collaboration with the CIM faculty. Now in full colour and a new student friendly format, key information is easy to locate on each page. Each chapter is packed full of case studies, study tips and activities to test your learning and understanding as you go along. The coursebooks are the only study guide reviewed and approved by CIM, The Chartered Institute of Marketing. Each book is crammed with a range of learning objectives, cases, questions, activities, definitions, study tips and summaries to support and test your understanding of the theory. Past examination papers and examiners' reports are available online to enable you to practise what has been learned and help prepare for the exam and pass first time. Extensive online materials support students and tutors at every stage. Depression Dan Schiller, 2014-10-15. The financial crisis of 2007-08 shook the idea that advanced information and communications technologies (ICTs) as solely a source of economic rejuvenation and uplift, instead introducing the world to the once unthinkable idea of a technological revolution wrapped inside an economic collapse. In *Digital Depression*, Dan Schiller delves into the ways networked systems and ICTs have transformed global capitalism during the so-called Great Recession. He focuses on capitalism's crisis tendencies to confront the contradictory matrix of a technological revolution and economic stagnation, making up the current political economy and demonstrates digital technology's central role in the global political economy. As he shows, the forces at the core of capitalism—exploitation, commodification and inequality—are ongoing and accelerating within the networked political economy. *Financial Accounting* Paul D.
