My Struggle for Peace, Volume 2 (1955) Moshe Sharett, 2019-03-19 The second volume of the former Israeli prime minister's journals from the nation's early years centering on his time in office My Struggle for Peace is a remarkable political document offering insights into the complex workings of the young Israeli political system set against the backdrop of the disintegration of the country's fragile armistice with the Arab states Replete with Moshe Sharett's candid comments on Israel's first generation leaders and world statesmen of the day the diary also tells the dramatic human story of a political career cut short the removal of an unusually sensitive dedicated and talented public servant My Struggle for Peace is above all an intimate record of the decline of Sharett's moderate approach and the rise of more activist militant trends in Israeli society culminating in the Suez Sinai war of 1956 The diary challenges the popular narrative that Israel's confrontation with its neighbors was unavoidable by offering daily evidence of Sharett's statesmanship moderation

diplomacy and concern for Israel's place in international affairs This is the second volume in the 3 volume English abridgement of Sharett's Yoman Ishi Personal diary Ma'ariv 1978 maintains the integrity flavor and impact of the 8 volume Hebrew original and includes additional documentary material that was not accessible at the time The volumes are also available to purchase as a set or individually The editors vastly improved on the Hebrew version by adding Sharett's speeches reports cabinet minutes and other sources to the text These additions make this work so important and welcome by all who aspire to understand the foreign and defense policies of Israel in its first decade Israel Studies Review [A station named Liligumma](#) Krupasagar Sahoo, 2020-09-23 A station named Liligumma and other Rail stories contains one novella and eleven short stories based on the backdrop of Railways Liligumma is a small but beautiful hill station on the Koraput Rayagada Railway line During the construction of this Railway line an engineer named Srikanth meets a girl from Liligumma and a romance ensues On the request of the girl the station is built near her village but the engineer loses his job soon after The novella is a poignant tale of unrequited love The writer who is a retired Railway officer has woven eleven more stories based on his experiences The collection of stories is peppered with humour empathy towards Railway staff and crime stories which will strike a chord in the heart of the readers [Pounding the Rock](#) Marc Skelton, 2019-03-12 Welcome to Fannie Lou Hamer Freedom High School in a working class corner of the Bronx where a driven coach inspires his teams to win games and championships and learn Russian history and graduate and go on to college In 2006 the Fannie Lou Hamer Panthers basketball team was 0-18 Since 2007 the year Marc Skelton a New Hampshire native took over as head coach the Panthers record has been 228-68 and they've won three Public School Athletic League championships and one statewide championship This tiny 400 student school has become a powerhouse on the basketball court as well as a public education success story and a symbol of the regeneration of its once blighted neighborhood In Pounding the Rock Marc Skelton tells the thrilling story of the 2016-2017 season as the Panthers seek to redeem an early exit from the playoffs the year before But this is far more than a basketball story It's a profile of a school that against the odds educates kids from the poorest congressional district in the country and sends the majority of them to college of an unusual coach who studies the game with Talmudic intensity demands as much of himself as he does of his players a lot and finds inspiration as much from Melville Gogol and Jacob Riis as from John Wooden and of a squad of young men who battle against difficulties in life every day and who don't know how to quit In a world of all too many downers Pounding the Rock is one big up on the court and off All fans of basketball and of life will rise up and applaud **Congressional Record** United States. UNESCO,2015-11-09 There are fewer grounds today than in the past to deplore a North South divide in research and innovation This is one of the key findings of the UNESCO Science Report towards 2030 A large number of countries are now incorporating science technology and innovation in their national development agenda in order to make their economies less reliant on raw materials and more rooted in knowledge Most research and development R D is taking place in high income countries but innovation of some kind is now occurring across the full spectrum of income levels according to the first survey of manufacturing companies in 65 countries conducted by the UNESCO Institute for Statistics and summarized in this report For many lower income countries sustainable development has become an integral part of their national development plans for the next 10 20 years Among higher income countries a firm commitment to sustainable development is often coupled with the desire to maintain competitiveness in global markets that are increasingly leaning towards green technologies The quest for clean energy and greater energy efficiency now figures among the research priorities of numerous countries Written by more than 50 experts who are each covering the country or region from which they hail the UNESCO Science Report towards 2030 provides more country level information than ever before The trends and developments in science technology and innovation policy and governance between 2009 and mid 2015 described here provide essential baseline information on the concerns and priorities of countries that could orient the implementation and drive the assessment of the 2030 Agenda for Sustainable Development in the years to come **Human Resources in Development Along the Asia-Pacific Rim**
