Motor Learning and Performance Richard A. Schmidt, Craig A. Wrisberg, 2000 Dublin born Thomas Southerne has long been admired by scholars as one of the most important dramatists of the Restoration but the lack of a modern edition has prevented his plays from taking their deserved place alongside those of Congreve Wycherly and Etherege This two volume collection based on an exhaustive study of the earliest editions brings together his ten plays and the small surviving body of non dramatic writing Volume Two features two of Southerne's best known tragedies *The Fatal Marriage* and *Oroonoko* based on stories by Aphra Behn and the variants between the censored and uncensored texts of his political tragedy *The Spartan Dame* In addition the introduction contains the first biography of Southerne based on a comprehensive study of the surviving documentary records and the editors have incorporated generous notes to clarify the many contemporary allusions and to relate Southerne's work to its sources and models

ISE Motor Learning and Control: Concepts and Applications Richard A. Magill, David I. Anderson, 2020-04-27 This twelfth edition primarily updates the previous edition by adding more recent research and interpretations of the concepts and theoretical views associated with those concepts that were in the eleventh edition Similar to the previous editions this new edition continues its two most distinctive features as an introductory motor learning and control textbook its overall approach to the study of motor learning and control and the organization of the implementation of that approach In every edition of this book the overall approach has been the presentation of motor learning and control concepts to identify the common theme of each chapter The concepts should be viewed as generalized statements and conclusions synthesized from collections of research findings Following the concept statement is a description of a real world application of the concept which is then followed by discussions of specific topics and issues associated with the concept An important part of these discussions are summaries of research evidence on which we base our present knowledge of each topic and issue as well as the implications of this knowledge for practitioners The benefit of this organizational scheme is the presentation of motor learning and control as a set of principles and guidelines for practitioners which are based on research evidence rather than on tradition or how things have always been done
