- Do not run cables over sharp edges that may cause excessive wear or chaffing of the cable insulation.
- Do not install components in locations where they may cause interference to the operation of the vehicle controls.

Check the required mounting locations. Modern cars are equipped with power supply connections for mobile phone inside the passengers cabin. It is preferable to connect the power cable to these connections.

On some vehicles, it is necessary to penetrate the bulkhead to reach the battery. Ensure that there is cable clearance on the opposite side of the bulkhead and that vehicle Electronic Control Modules (ECM) are not installed on the opposite side of the bulkhead before drilling commences. Protect the cable where it passes through the bulkhead by using a grommet or similar protective measures.

OPERATIONAL SAFETY GUIDELINES

This section provides the operational safety guidelines for the equipment.

Caution

1. Equipment that is not specified for outdoor use must only be used in dry locations. Ensure that rain or snow cannot reach the equipment, such as through an open vehicle window.
2. Maximum ambient temperature around the equipment must not exceed 50 °C (122 °F).
3. Prevent foreign objects or fluids from getting into the equipment.
4. To reduce risk of injury, use only Motorola Solutions approved items with your mobile or portable radios.

IMPORTANT SAFETY INSTRUCTIONS

The PMPN4083 is a Vehicular Power Module Cable used with Vehicular Cradles.

This leaflet contains important safety and operating instructions and must be read in conjunction with the product safety information supplied with the mobile or portable radios, used with the accessories. Read these instructions carefully and save them for future reference. Installation of communications equipment must be performed by qualified personnel only. Read the instructions and cautionary markings on all other items before using the Vehicular Cradle Kit. Consult vehicle manufacturer guidance on mounting equipment in vehicles.

SAFETY AND GENERAL INFORMATION

A properly installed Vehicular Cradle Kit minimizes service calls.

When mounting the components of the Vehicular Cradle Kit, consider the following factors:

- The mounting surface must have sufficient strength to support the item being mounted to prevent it from becoming loose over time.
 - Do not attach components to any part of the vehicle that is subject to excessive vibration.
 - The proposed location of the item being mounted, wires, or cables attached must not interfere with the driver or passenger seating or leg space.
 - Use the supplied mounting hardware.
 - Ensure that the cables are not stretched and not subject to heat from the engine, transmission housing, or heating ducts.
 - Crimp connectors securely.
5. It is essential to mount the equipment in locations where it does not cause any injury in the event of a collision.
 6. A vehicle air bag inflates with great force. Do not place objects, including communications equipment, in the area over the vehicle air bag or in the air bag deployment area. If the communication equipment is improperly installed and the vehicle air bag inflates, this could cause serious injury. If necessary, contact the vehicle manufacturer for air bag information specific to the vehicle.
 7. Verify that none of the vehicle systems are affected by use of the portable radio such as cruise control, anti-lock braking system (ABS), traction control, engine management, direction indicators, lights, and others.
 8. Use existing openings through the bulkhead to avoid drilling. If drilling is necessary, ensure that no damage is incurred to the Vehicle Electronic Control Modules (ECM), fuel pipes, brake pipes, and/or cable looms.
 9. Do not transport or store flammable gas, flammable liquids, or explosives in the compartment of your vehicle that contains your equipment.
 10. To avoid possible interference with blasting operations, turn your radio off before entering an area where you may be close to electrical blasting caps, in a "blasting area" or in areas posted as "Turn off two-way radios". Obey all signs and instructions.
