American Wildlife & Plants Alexander Campbell Martin, Herbert Spencer Zim, Arnold L. Nelson, 1961-01-01 Prepared under the direction of the United States Fish and Wildlife Service Department of the Interior at the Patuxent Research Refuge Laurel Maryland American Animals Witmer Stone, William Everett Cram, 1902 Wild Encounters: A Journey Through North American Wildlife Pasquale De Marco, Embark on an unforgettable journey through the heart of North American wildlife with Wild Encounters A Journey Through North American Wildlife This captivating book immerses you in the rich tapestry of the continent's ecosystems from the soaring skies to the depths of the ocean from lush forests to arid deserts In these pages you'll meet the iconic birds that grace our skies from the majestic Bald Eagle to the melodious songbirds that serenade us every morning Dive into the underwater world of coastal marine life and discover the secrets of coral reefs and the mysteries of the deep sea Explore the wilderness of the heartland where bison herds roam and pronghorns race across the plains Wild Encounters is more than a mere exploration it's a call to action Each chapter reveals the critical conservation efforts aimed at safeguarding these precious ecosystems and their inhabitants Learn about the challenges these species face and the remarkable successes achieved through unwavering dedication Throughout these pages you'll find the magic of the natural world brought to life through vivid storytelling Whether you're an avid birder a marine enthusiast or simply someone who appreciates the beauty of our planet this book offers a window into the awe inspiring diversity of North American wildlife Join us on this journey of discovery and conservation as we celebrate the breathtaking beauty of North American wildlife and share the inspiring stories of survival adaptation and resilience that define this remarkable continent **Restoring America's Wildlife, 1937-1987** Harmon Kallman, 1987 Fittingly the Act's chief sponsors were a Senator from Nevada Key Pittman and a Representative from Virginia A Willis Robertson The Pittman Robertson Act as it came to be called sped through Congress and was signed into law by President Franklin Roosevelt on September 2 1937 From a modest beginning the Pittman Robertson program has grown with the economy and the human population of our country By now it has channeled nearly 1.7 billion in Federal excise tax receipts augmented by some 600 million from the States into activities to restore wildlife The projects include State acquisition of acreage needed to bring wildlife back research into wildlife requirements and problems active management of habitats and development of scientific ways to enable wildlife and people to share our land in harmony The program has strengthened State governments and built

wildlife management into a respected profession Mountain Animals Ruth Owen, 2014-07-15 With yaks mountain leopards and goats this is anything but a garden variety origami book Chock full of exciting mountain animals this book teaches readers how to create paper replicas while instructing them about the eating social and daily habits of each creature Easy to follow instructions ensure success with each project while photos and illustrations will delight readers *The North American Model of Wildlife Conservation* Shane P. Mahoney, Valerius Geist, 2019-09-10 The foremost experts on the North American Model of Wildlife Conservation come together to discuss its role in the rescue recovery and future of our wildlife resources At the end of the nineteenth century North America suffered a catastrophic loss of wildlife driven by unbridled resource extraction market hunting and unrelenting subsistence killing This crisis led powerful political forces in the United States and Canada to collaborate in the hopes of reversing the process not merely halting the extinctions but returning wildlife to abundance While there was great understanding of how to manage wildlife in Europe where wildlife management was an old mature profession Continental methods depended on social values often unacceptable to North Americans Even Canada a loyal colony of England abandoned wildlife management as practiced in the mother country and joined forces with like minded Americans to develop a revolutionary system of wildlife conservation In time and surviving the close scrutiny and hard ongoing debate of open democratic societies this series of conservation practices became known as the North American Model of Wildlife Conservation In this book editors Shane P Mahoney and Valerius Geist both leading authorities on the North American Model bring together their expert colleagues to provide a comprehensive overview of the origins achievements and shortcomings of this highly successful conservation approach This volume reviews the emergence of conservation in late nineteenth early twentieth century North America provides detailed explorations of the Model s institutions principles laws and policies places the Model within ecological cultural and socioeconomic contexts describes the many economic social and cultural benefits of wildlife restoration and management addresses the Model s challenges and limitations while pointing to emerging opportunities for increasing inclusivity and optimizing implementation Studying the North American experience offers insight into how institutionalizing policies and laws while incentivizing citizen engagement can result in a resilient framework for conservation Written for wildlife professionals researchers and students this book explores the factors that helped fashion an enduring conservation system one that has not only rescued recovered and sustainably utilized wildlife for over a century but that has also advanced a significant economic driver and a greater scientific understanding of wildlife ecology Contributors Leonard A Brennan Rosie Cooney James L Cummins Kathryn Frens Valerius Geist James R Heffelfinger David G Hewitt Paul R Krausman Shane P Mahoney John F Organ James Peek William Porter John Sandlos James A Schaefer *Wildlife Restoration and Conservation Proceedings of the North American Wildlife Conference Called by President Franklin D. Côté,2012-09-26 Mountain goats have been among the least studied of North American ungulates leaving wildlife managers with little information on which to base harvest strategies or conservation plans This book offers the first comprehensive assessment of the ecology and behavior of mountain goats setting forth the results of a remarkable 16 year longitudinal study of more than 300 marked individuals in a population in Alberta Canada The authors thorough long term study allowed them to draw important conclusions about mountain goat ecology including individual reproductive strategies population dynamics and sensitivity to human disturbance and to use those conclusions in offering guidance for developing effective conservation strategies Chapters examine habitat use vegetation quality and seasonal movements sexual segregation and social organization individual variability in yearly and lifetime reproductive success of females age and sex specific survival and dispersal reproductive strategies and population dynamics management and conservation of mountain goats The book also draws on the rich literature on long term monitoring of marked ungulates to explore similarities and differences between mountain goats and other species particularly bighorn sheep and ibex By monitoring a marked population over a long period of time researchers were able to document changes in sex age structure and identify factors driving population dynamics Because it explores the links between individual life history strategy and population dynamics in a natural setting Mountain Goats will be an invaluable resource for wildlife managers researchers in ecology and animal behavior conservationists population biologists and anyone concerned with the ecology and management of natural populations especially in alpine environments
