students researchers and industry practitioners *Klio hat jetzt Internet* Kilian Baur, Robert Trautmannsberger, 2023-09-18 Geschichtsvideos auf Youtube haben für die Vermittlung historisch politischer Inhalte eine enorme Reichweite erlangt. Das Problem: Aus wissenschaftlicher Perspektive sind diese Videos nicht immer fachlich und normativ tragfähig. Als Phänomene der Geschichtskultur vermitteln sie historische Orientierungsangebote an die Rezipienten, woraus handlungsleitende Motive entspringen können. Daraus ergibt sich die Notwendigkeit, Geschichtsdarstellungen auf Youtube nicht nur zu konsumieren, sondern auch zu reflektieren und in ihrer gesamtgesellschaftlichen Relevanz zu verstehen. Daher widmet sich der Band den medialen Inszenierungen, geschichtskulturellen Aushandlungsprozessen und der Epochenspezifität von Geschichtsdarstellungen auf Youtube. Um die fachlichen Expertisen zu diesen Themen zu bündeln, versammelt der Band acht wissenschaftliche Beiträge zu einer interdisziplinären Zusammenschau. Aus dieser Perspektive will der Band einen Beitrag zur Bestimmung des Verhältnisses der Geschichtswissenschaften zu populären Medien und den daraus erwachsenden Herausforderungen leisten.

Animated Mischief Brian N. Duchaney, David S. Silverman, 2023-09-28 Over the last century the medium of animation has served as an expression of childhood as well as a method of subverting the expectations of what society has promised for the future. Separated into three parts, this work assembles various explorations of taste, culture, and passion through animation. Section I features essays that outline the historical changes in art and society that gave rise to an outsider culture that found a home in animation. In the second section, essays examine the practical use of animation as a voice for the underserved. Finally, in Section III, essays analyze the ways in which animation has reshaped the acceptance of outsider status to embrace otherness. Featuring everything from feature length films to self-produced YouTube videos, the essays in this text reflect a shared love of animation and its unique ability to comment on society and culture.

Streaming and Copyright Law Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part

Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions
