Doping in Non-Olympic Sports Lovely Dasgupta,2021-09-30 This book is the first of its kind to discuss doping within Non Olympic Sports Sports like American football cricket and dance sports have in recent years been in the news for doping activities The scale of the incidents may differ in each of these sports but they present interesting questions about the legitimacy of the World Anti Doping Agency WADA Code Doping in Non Olympic Sports Challenging the legitimacy of WADA argues against the International Olympic Committee IOC run regime where WADA Code compliance is used as the only parameter to define an activity as a sport The book argues that the definition of modern sport is based on certain factors identified through sociological and historical research These parameters are common across the board and do not distinguish between Olympic and Non Olympic sports However the use of the word Olympic in the Non Olympic sport terminology subjects such sports to IOC dictates Consequently the IOC exploits its monopoly over the word Olympics to insist on WADA Code compliances The numerous instances of doping as reported go on to prove that WADA is turning a blind eye to these Non Olympic sports This book is the first to dissect the issue of doping within Non Olympic sports and questions the very idea of WADA compliance as a condition precedent to defining sports going on to highlight the inbuilt inequity within the existing anti doping system wherein a private regime is usurping the State s discretion The new cutting edge research book is key reading for academics and researchers in the fields of Coaching Sport Pharmacology Sport Medicine Sports Law and the related disciplines

Down Cathedral J. Fred Rankin,1997 Down Cathedral is one of the two oldest ecclesiastical foundations in Ulster still in use Although the present structure dates from the early 13th century it is known that there had been a monastery and place of worship on the Hill of Down for many centuries before then This book describes and illustrates the history of the Hill of Down from those earliest times to the present day The relationship of St Patrick with the Hill is narrated and takes careful account of the latest research some of it controversial on the association of the island s patron saint with the Hill on which he is thought to be buried The intriguing early and middle history of the Cathedral including the building of the Benedictine monastery the bishops and priors who ruled over it and its destruction at the dissolution of the monasteries in the middle of the 16th century is told in clear and absorbing detail Its subsequent restoration to full glory from the 1790s largely due to the influence of the Downshire family marks the beginning of the modern period for this much loved building The story is brought right up to date with the recent appointment of a New Bishop and a new Dean Important new sources in the State Papers and in archiepiscopal registers that have only recently become accessible have been used in the telling of this fascinating study Many of the images in this work are published for the first time and include photographs of irreplaceable artifacts uncovered during the significant archaeological excavations of the last few years The outcome is a comprehensive pioneering and beautifully illustrated account of one of Ireland s most treasured historical locations written with authority and affection by one of the country s most accomplished and respected ecclesiastical historians
