**Agent-Oriented Information Systems IV** Manuel Kolp, Brian Henderson-Sellers, Haralambos Mouratidis, Alessandro Garcia, Aditya Ghose, Paolo Bresciani, 2008-02-29 This is the eighth year that the Agent Oriented Information Systems AOIS workshops have been held. Papers submitted to AOIS show an increase in quality and maturity as agent technology is being increasingly seen as a viable alternative for software and systems development. In AOIS we focus on the application of agent technology in information systems development and explore the potential for facilitating the increased usage of agent technology in the creation of information systems in the widest sense. This year's workshops were held in conjunction with two major international computing research conferences: the first in May 2006 was affiliated with the AAMAS conference in Hakodate, Japan, and chaired by Garcia, Ghose, and Kolp. The second was held in conjunction with the international CAiSE conference held in Luxembourg, June 2006, and chaired by Bresciani, Henderson, Sellers, and Mouratidis. Details of all preceding workshops are to be found at <http://www.aois.org>. The best papers from both these meetings were identified, and authors invited to revise and extend their papers in light of the reviewers' comments and feedback at the workshop. Following submission to this compendium volume, another round of reviews was undertaken, resulting in what you can read here. These reviews were undertaken by three members of the Programme Committee; we wish to thank both the authors for undertaking the necessary revisions and the reviewers for this extra call on their precious time.
