Solutions For Anti-Black Misandry, Flat Blackness, and Black Male Death T. Hasan Johnson, 2023-08-15 This book deconstructs stereotypes about Black men through the exploration of their vulnerability drawing attention to their demographic specific issues and needs that are so rarely articulated Since the Black Power era

many Black men have responded with a Black identity affirming sensibility that sought to advance the cause of Black people. However, Black males have a need for race and gender specific vocabulary that explains their experience with specificity including concepts such as Black Masculinity, anti-Black misogyny, and Black Andromortality which seek to explain the experiences of Black males from the context of their lived experiences. Drawing upon empirical data, this volume offers policy solutions that challenge the institutional prejudices against Black males and the disproportionately high rates of death they face. Solutions are proposed to the outlined challenges and chapters span topics such as social and family based solutions, health, small business support, law and policy. This book will be essential reading for researchers, professionals, and anyone interested in masculinity, gender studies, and Black Male Studies.

Billionaires' Row Katherine Clarke, 2024-06-11. A thrilling *Financial Times* fly on the wall account of the ferocious ambition, greed, and one-upmanship behind the most expensive real estate in the world: the new Manhattan megatowers known as Billionaires' Row. From a staff reporter at *The Wall Street Journal*, deeply informative, delightfully entertaining, and addictively readable. Diana B. Henriques, bestselling author of *The Wizard of Lies*, a *CEO Magazine* Best Book of the Year, Longlisted for the *Financial Times* and *Schroders Business Book of the Year* Award. To look south and skyward from Central Park these days is to gaze upon a physical manifestation of tens of billions of dollars in global wealth: a series of soaring spires stretching from Park Avenue to Broadway. Known as Billionaires' Row, this set of slender high-rise residences has transformed the skyline of New York City thanks to developer-friendly policies and a seemingly endless gush of cash from tech, finance, and foreign oligarchs. And chances are most of us will never be invited to step inside. In *Billionaires' Row*, Katherine Clarke reveals the captivating story of how in just a few years the ruthless real estate impresarios behind these supertalls lining 57th Street turned what was once a run-down strip of Midtown into the most exclusive street on Earth as legendary Trump-era veterans went toe-to-toe with hungry upstart developers in an ego-fueled race to the sky. Based on far-reaching access to real estate's power players, Clarke's account brings readers inside one of the world's most cutthroat industries, showing how a combination of ferocious ambition and relentless salesmanship has created a new market of 100 million apartments for the world's one percenters: units to live in or sometimes just places to stash their cash. Filled with eye-popping stories that bring the new era of extreme wealth inequality into vivid relief, *Billionaires' Row* is a juicy, gimlet-eyed account of the genius, greed, and financial one-

upmanship behind the most expensive real estate in the world a stranger than fiction saga of broken partnerships broken marriages lawsuits and for a few fleeting triumph
