The Experimental Nature of New Venture Creation Martin Curley, Piero Formica, 2013-06-13 This book presents readers with the opportunity to fundamentally re-evaluate the processes of innovation and entrepreneurship and to rethink how they might best be stimulated and fostered within our organizations and communities The fundamental thesis of the book is that the entrepreneurial process is not a linear progression from novel idea to successful innovation but is an iterative series of experiments where progress depends on the persistence and resilience of the individuals involved and their ability and to learn from failure as well as success From this premise the authors argue that the ideal environment for new venture creation is a form of experimental laboratory a community of innovators where ideas are generated shared and refined experiments are encouraged and which in itself serves as a test environment for those ideas and experiments This environment is quite different from the traditional incubator which may impose the disciplines of the established firm too early in the development of the new venture Featuring case examples of start-ups across a wide spectrum of industries from Wikipedia to Ryanair the authors explore the qualities of successful innovation including a high tolerance of risk and unpredictability and commitment to building knowledge enterprises that value intangible assets This volume is a clarion call to those in academia enterprise and government who seek to work together to promote innovation and entrepreneurship with a stark message for academic institutions engage or be left behind

The Four Steps to the Epiphany Steve Blank, 2020-03-17 The bestselling classic that launched 10 000 startups and new corporate ventures The Four Steps to the Epiphany is one of the most influential and practical business books of all time

The Four Steps to the Epiphany launched the Lean Startup approach to new ventures. It was the first book to offer that startups are not smaller versions of large companies and that new ventures are different than existing ones. Startups search for business models while existing companies execute them. The book offers the practical and proven four step Customer Development process for search and offers insight into what makes some startups successful and leaves others selling off their furniture. Rather than blindly execute a plan, The Four Steps helps uncover flaws in product and business plans and correct them before they become costly. Rapid iteration, customer feedback, testing your assumptions are all explained in this book. Packed with concrete examples of what to do, how to do it, and when to do it, the book will leave you with new skills to organize sales, marketing, and your business for success. If your organization is starting a new venture and you're thinking how to successfully organize sales, marketing, and business development, you need The Four Steps to the Epiphany. Essential reading for anyone starting something new. The Four Steps to the Epiphany was originally published by K S Ranch Publishing Inc and is now available from Wiley. The cover design and content are the same as the prior release and should not be considered a new or updated product.

Überlegungen zu einer entrepreneur-orientierten Ausbildung an gewerblichen Fachschulen Falk Hartmann, 2014-10-16. In der Arbeit wird untersucht, ob eine Ausbildung zum Entrepreneur also zur Selbstständigkeit möglich ist und es wird ein geeigneter curricularer Ansatz gesucht. Eine Entrepreneurship Education in die Ausbildung zum staatlich geprüften Techniker Maschinentechnik zu integrieren.

New Venture Creation Marc H. Meyer, 2014. *Innovation and Entrepreneurship* Ralph F. Brueggemann, Charles H. Matthews, 2015-03-12. This book presents a new model, the competency framework for students, innovators, entrepreneurs, managers, and anyone who wants to better understand the dynamic world of innovation and entrepreneurship. Focused on both the individual and strategic organizational level, this book is about people and the competencies each person needs to learn to be successful in creating a more dynamic future. Matthews and Brueggemann's framework for innovation and entrepreneurship competencies empowers individuals to excel at innovation and new venture creation. It provides a practical guide and clear and concise understanding of the knowledge, skills, attitudes, and experiences that are needed to increase imagination, creativity, innovation, and new venture creation capability. Innovation and Entrepreneurship will be attractive for students of entrepreneurship, innovation management, and cross-disciplinary classes such as design thinking. Presented in a modular format, Innovation Entrepreneurship informs the future direction of people and technology as well as the educational systems producing the next generation of innovators and entrepreneurs. Based on extensive academic research, this book is organized into two sections: Twelve innovation elements and twelve competency categories. The elements are the foundation, and the competency categories are the building blocks that inform our path toward a more precise understanding of how innovation and entrepreneurship plays an important role in economic development and our daily lives.
