Schmidt, 2019-06-19 Between the 1970s and the 1990s American journalists began telling the news by telling stories They borrowed narrative techniques transforming sources into characters events into plots and their own work from stenography to anthropology This was more than a change in style It was a change in substance a paradigmatic shift in terms of what constituted news and how it was being told It was a turn toward narrative journalism and a new culture of news propelled by the storytelling movement Thomas Schmidt analyzes the expansion of narrative journalism and the corresponding institutional changes in the American newspaper industry in the last quarter of the twentieth century In doing so he offers the first institutionally situated history of narrative journalism s evolution from the New Journalism of the 1960s to long form literary journalism in the 1990s Based on the analysis of primary sources industry publications and oral history interviews this study traces how narrative techniques developed and spread through newsrooms advanced by institutional initiatives and a growing network of practitioners proponents and writing coaches who mainstreamed the use of storytelling Challenging the popular belief that it was only a few talented New York reporters Tome Wolfe Jimmy Breslin Gay Talese Joan Didion and others who revolutionized journalism by deciding to employ storytelling techniques in their writing Schmidt shows that the evolution of narrative in late twentieth century American Journalism was more nuanced more purposeful and more institutionally based than the New Journalism myth suggests *Encyclopedia of journalism. 6. To the young man or woman choosing a Navy career field, whether for one enlistment or for 30 years, the journalist rating offers endless avenues for an imaginative yet mature thinker. Many of the duties and responsibilities of the journalist rank among Americans' favorite hobbies and pastimes such as writing, broadcasting and photography. The Navy journalist learns and practices a distinguished profession and becomes an official representative of the Navy in public affairs matters. The first enlisted specialists to work full time in the field of Navy journalism were Naval Reserve personnel selected during the early years of World War II. They were designated Specialist X Naval Correspondents. In 1948, under a major overhaul affecting almost every enlisted rating, the journalist JO rating was established.

MAJOR TASKS AND RESPONSIBILITIES

LEARNING OBJECTIVE Identify the major tasks and responsibilities of the Navy journalist, the personal traits required for one to best perform the duties of the rating, the applicable NECs and the purpose of the JO 3 2 training manual.

TRAMAN In our democratic society, government depends on the consent of the governed. This important principle means that in the long run, the United States government does only what the people want it to do. Therefore, we can have a Navy only if the people know and understand the importance of the Navy and support it. The Navy, like the other services, depends on this country's citizens for the four key tools of its trade: personnel, money, materials and the authority to carry out its mission. As a Navy journalist, your main function will be to make the facts about your Navy available to the Navy's three main publics: the people at your ship or station, Navy people in general, and the people of the United States as a whole.
