competitive positioning business planning accessing capital and shareholders and how to transform the MFI s human resources financial management MIS internal controls and branch operations Case studies then provide examples of developing a new regulatory tier for microfinance and how a Ugandan NGO transformed to become a licensed financial intermediary This book will be invaluable to regulators and microfinance NGOs contemplating institutional transformation and will be of tremendous use to donors and technical support agencies supporting MFIs in their transformation

Bangladesh II: Climate Change Impacts, Mitigation and Adaptation in Developing Countries Md. Nazrul Islam, André van Amstel, 2021-08-03 This volume aims to develop a framework for disaster and climate risk resilient livelihood system in Bangladesh using a policy oriented approach It highlights the possible impacts of climate change on groundwater based irrigation in the country Climate change is one of biggest challenges to society It can lead to serious impacts on production life and environment on a global scale Higher temperatures and sea level rise will cause flooding and water salinity problems which will bring about negative effects on agriculture and high risks to industry and socio economic systems in the future Climate change will lead to many changes in global development and security especially energy water food society job diplomacy culture economy and trade The Intergovernmental Panel on Climate Change IPCC defines climate change as Any change in climate over time whether due to natural variability or as a result of human activity Global climate change has emerged as a key issue in both political and economic arenas It is an increasingly questioned phenomenon and progressive national governments around the world have started taking action to respond to these environmental concerns Mining Capitalism Stuart Kirsch, 2014-06-07 Corporations are among the most powerful institutions of our time but they are also responsible for a wide range of harmful social and environmental impacts Consequently political movements and nongovernmental organizations increasingly contest the risks that corporations pose to people and nature Mining Capitalism examines the strategies through which corporations manage their relationships with these critics and adversaries By focusing on the conflict over the Ok Tedi copper and gold mine in Papua New Guinea Stuart Kirsch tells the story of a slow moving environmental disaster and the international network of indigenous peoples advocacy groups and lawyers that sought to protect local rivers and rain forests Along the way he analyzes how corporations promote their interests by manipulating science and invoking the discourses of sustainability and social responsibility Based on two decades of anthropological research this book is comparative in scope showing readers how similar dynamics operate in other industries around the world *Transnational Financial Associations and the Governance of Global Finance* Heather McKeen-Edwards, Tony Porter, 2013-02-11 The role of business in global governance is now widely recognized but exploration of its role in global financial governance has been more haphazard than systematic This book provides the first comprehensive analysis of the role of transnational financial associations TFAs in the organization of global finance This book develops three theoretical themes of assemblage functionality and power as enrolment These themes challenge approaches that treat financial power as

emanating from a single location or force Whilst existing approaches tend to treat TFAs as irrelevant or as merely transmitting power originating elsewhere this book argues that power must be created by painstakingly assembling actors networks and objects that are often quite autonomous and working at cross purposes to one another a process in which TFAs play a central role The book explores these themes in chapters examining the roles of TFAs in interacting with public authorities constructing global financial markets and creating financial communities The authors additionally analyse the roles of TFAs in the European Union in the Global South and in promoting goals other than profitability including Islamic finance microfinancing savings banks and cooperatives Making a distinctive contribution to our understanding of global finance and global governance Transnational Financial Associations and the Governance of Global Finance is an important book for students and scholars of international political economy finance global governance and international relations

Risk and Conflicts Andreas Neef, Rajib Shaw, 2013-12-18 This book analyzes the role of local responses to natural disasters and conflict Key issues such as the relationship between local

and external knowledge in addressing disasters the relevance of institutional and policy frameworks for community based disaster response and the role of social capital and collective action are also addressed **Adaptive Social Protection**

Thomas Bowen, Carlo del Ninno, Colin Andrews, Sarah Coll-Black, Kelly Johnson, Yasuhiro Kawasoe, Adea Kryeziu, Barry Maher, Asha Williams, 2020-06-12 Adaptive social protection ASP helps to build the resilience of poor and vulnerable households to the impacts of large covariate shocks such as natural disasters economic crises pandemics conflict and forced displacement Through the provision of transfers and services directly to these households ASP supports their capacity to prepare for cope with and adapt to the shocks they face before during and after these shocks occur Over the long term by supporting these three capacities ASP can provide a pathway to a more resilient state for households that may otherwise lack the resources to move out of chronically vulnerable situations Adaptive Social Protection Building Resilience to Shocks outlines an organizing framework for the design and implementation of ASP providing insights into the ways in which social protection systems can be made more capable of building household resilience By way of its four building blocks programs information finance and institutional arrangements and partnerships the framework highlights both the elements of existing social protection systems that are the cornerstones for building household resilience as well as the additional investments that are central to enhancing their ability to generate these outcomes In this report the ASP framework and its building blocks have been elaborated primarily in relation to natural disasters and associated climate change Nevertheless many of the priorities identified within each building block are also pertinent to the design and implementation of ASP across other types of shocks providing a foundation for a structured approach to the advancement of this rapidly evolving and complex agenda Climate, Environmental Hazards and Migration in Bangladesh Max Martin, 2017-07-20 The apocalyptic visions of

climate change that are projected in the media often involve extreme weather events disasters and mass migration of poor people This book takes a critical look at this notion drawing on research in Bangladesh a country located at the heart of debates on climate change and migration This book argues that rather than leading to dramatic events climatic and environmental impacts often cause incremental changes in people s habitats and livelihoods making them migrate in search of better places and income With or without climate change climatic and environmental factors can impoverish people and drive displacement and migration especially in the global South These influences including disasters need not necessarily make people move but instead sometimes trap the poorest and the most vulnerable people in their places exposed to hazards or make them migrate to even riskier places such as crowded and flood prone urban slums This book argues that restrictions placed on people s mobility options could increase their vulnerability and favours proactive migration policies This timely contribution explains the climate hazard migration nexus in an accessible engaging language for students of geography development studies politics and environmental studies as well as humanitarian and development practitioners and policymakers *Security and Risk Assessment for Facility and Event Managers* Stacey Hall, James M. policies and practices of the employer can help to address and mitigate that risk. In this book the specific content and scope of the duty of care under international law is clarified by conducting an unprecedented investigation into relevant jurisprudence and legal sources. Included is a critical assessment of the policies of selected international organizations while a set of guiding principles on the duty of care of international organizations is also presented. This publication fills a gap in the existing academic literature on the topic and is aimed particularly at academics and practitioners interested in the legal implications of the deployment of civilian personnel abroad by international organizations. This includes scholars and university level students specializing in international law, international human rights law, the law of international organizations, labour law, EU law, international administrative law and the UN system and practitioners such as lawyers and consultants representing or advising international organizations or their personnel on the legal aspects of deployment. The book is also aimed at the senior management of international organizations and at their officers in charge of recruitment, human resources, training and security in that it clarifies their legal obligations and provides concrete examples of the policies various international organizations have in place for the protection of civilian personnel. Current and prospective civilian personnel of international organizations should also find the book useful for clarifying their rights and duties.
