Cahiers du Musée national d'art moderne Musée national d'art moderne (France),2015 A Throne in Brussels Paul Belien,2014-03-10 Offers a history of the monarchy of Belgium a country artificially created in 1817 This book argues that the pan European super state resembles a Greater Belgium rather than a Greater Switzerland **International Development** Bruce Currie-Alder,Ravi Kanbur,David M. Malone,Rohinton Medhora,2014-02-27 Thinking on development informs and inspires the actions of people organizations and states in their continuous effort to invent a better world This volume examines the ideas behind development their origins how they have changed and spread over time and how they may evolve over the coming decades It also examines how the real life experiences of different countries and organizations have been inspired by and contributed to thinking on development The extent to which development works depends in part on particular local historical or institutional contexts General policy prescriptions fail when the necessary conditions that make them work are either absent ignored or poorly understood There is a need to grasp how people understand their own development experience If the countries of the world are varied in every way from their initial conditions to the degree of their openness to outside money and influence and success is not centred in any one group it stands to reason that there cannot be a single recipe for development Each chapter provides an analytical survey of thinking about development that highlights debates and takes into account critical perspectives It includes contributions from scholars and practitioners from the global North and the global South spanning at least two generations and multiple disciplines It will be a key reference on the concepts and theories of development their origins evolution and trajectories and act as a resource for scholars graduate students and practitioners *Conservation and Environmental Management in Madagascar* Ivan R. Scales,2014-03-14 Madagascar is one of the most biologically diverse places on the planet the result of 160 million years of isolation from the African mainland More than 80% of its species are not found anywhere else on Earth However this highly diverse flora and fauna is threatened by habitat loss and fragmentation and the island has been classified as one of the world s highest conservation priorities Drawing on insights from geography anthropology sustainable development political science and ecology this book provides a comprehensive assessment of the status of conservation and environmental management in Madagascar It describes how conservation organisations have been experimenting with new forms of protected areas community based resource management ecotourism and payments for ecosystem services But the country must also deal with pressing human needs The problems of poverty development environmental justice natural resource use and biodiversity conservation are shown to be interlinked in complex ways Authors address key questions such as who are the winners and losers in attempts to conserve biodiversity And what are the implications of new forms of conservation for rural livelihoods and environmental justice **History, Space and Place** Susanne Rau,2019-03-05 Spaces too have a history And history always takes place in spaces But what do historians mean when they use the word spaces And how can spaces be

historically investigated Susanne Rau provides a survey of the history of Western concepts of space opens up interdisciplinary approaches to the phenomenon of space in fields ranging from physics and geography to philosophy and sociology and explains how historical spatial analysis can be methodologically and conceptually conceived and carried out in practice The case studies presented in the book come from the fields of urban history the history of trade and global history including the history of cartography but its analysis is equally relevant to other fields of inquiry This book offers the first comprehensive introduction to the theory and methodology of historical spatial analysis Supported by Open Access funds of the University of Erfurt

The Social War, 91 to 88 BCE Dr Christopher J Dart, 2014-12-28 The Social War was a significant uprising against the Roman state by Rome's allies in Italy The conflict lasted little more than two and a half years but it is widely recognised as having been immensely important in the unification of Roman Italy Between 91 and 88 BCE a brutal campaign was waged but the ancient sources preserve scant information about the war In turn this has given rise to conflicting accounts of the war in modern scholarship and often contradictory interpretations This book provides a new and comprehensive reassessment of the events surrounding the Social War analysing both the long term and the immediate context of the conflict and its causes Critical to this study is discussion of the nexus of citizenship political rights and land which dominated much of second century BCE politics It provides a new chronological reconstruction of the conflict itself and analyses the strategies of both the Romans and the Italian insurgents The work also assesses the repercussions of the Social War investigating the legacy of the insurgency during the civil wars and considers its role in reshaping Roman and Italian identity on the peninsula in the last decades of the Republic
