

The background of the cover is a photograph of a vast, paved plaza, likely the Tiananmen Square in Beijing. The perspective is from a low angle, looking down the length of the square, with the lines of the paving stones converging towards the horizon. In the far distance, two figures are visible on the horizon line, one with arms outstretched. The sky is a pale, overcast blue.

Nice Eastern European Cultures Global Context:

European Warfare in a Global Context, 1660-1815 Jeremy Black, 2007-02-12 This original book presents a global approach to eighteenth century warfare Emphasis is placed on the importance of conflict in the period and the capacity for decisiveness in impact and development in method Through this Jeremy Black extends the view beyond land to naval conflict European Warfare in a Global Context offers a comparative approach in the sense of considering Western developments alongside those elsewhere furthermore it puts emphasis on conflict between Western and non western powers This approach necessarily reconsiders developments within the West but also offers a shift in emphasis from standard narrative of the latter This book is the ideal study of warfare for all students

Eastern European Youth Cultures in a Global Context Matthias Schwartz, Heike Winkel, 2016-04-29 The demise of state Socialisms caused radical social cultural and economic changes in Eastern Europe Since then young people have been confronted with fundamental disruptions and transformations to their daily environment while an unsettling globalized world substantially reshapes local belongings and conventional values In times of multiple instabilities and uncertainties this volume argues young people prefer to try to adjust to given circumstances than to adopt the behaviour of potential rebellious adolescent role models dissident counter cultures or artistic breakings of taboo Eastern European Youth Cultures in a Global Context takes this situation as a starting point for an examination of generational change cultural belongings political activism and everyday practices of young people in different Eastern European countries from an interdisciplinary perspective It argues that the conditions of global change not only call for a differentiated evaluation of youth cultures but also for a revision of our understanding of youth itself in Eastern Europe and beyond

Holocaust education in a global context Fracapane, Karel, Haß, Matthias, Topography of Terror Foundation (Germany), 2014-01-24 International interest in Holocaust education has reached new heights in recent years This historic event has long been central to cultures of remembrance in those countries where the genocide of the Jewish people occurred But other parts of the world have now begun to recognize the history of the Holocaust as an effective means to teach about mass violence and to promote human rights and civic duty testifying to the emergence of this pivotal historical event as a universal frame of reference In this new globalized context how is the Holocaust represented and taught How do teachers handle this excessively complex and emotionally loaded subject in fast changing multicultural European societies still haunted by the crimes perpetrated by the Nazis and their collaborators Why and how is it taught in other areas of the world that have only little if any connection with the history of the Jewish people Holocaust Education in a Global Context will explore these questions page 10

Documentary Aesthetics in the Long 1960s in Eastern Europe and Beyond, 2023-12-18 This book is the first to deal with documentary aesthetic practices of the post war period in Eastern Europe in a comparative perspective The contributions examine the specific forms and modes of documentary representations and the role they played in the formation of new aesthetic trends during the cultural political transition of the long 1960s This documentary

The European Culture for Human Rights Filomena Maggino, Elena Zamfir, 2014-09-01 This book represents a collection of a selected papers from an international conference focusing on the right to happiness held in Bucharest in December 2012 organized by Dimitie Cantemir Christian Bucharest University the Romanian Academy s Research Institute for Quality of Life Bucharest and the Romanian Institute for Human Rights Bucharest The analysis of happiness from the perspective of the quality of life is a unique development in human rights literature This analysis is based on people having an active role in bestowing meaning on different components of their life People have the means and the power to decide whether their life is good or bad by taking into account their subjective perceptions such as how different domains such as the family professional and civic realms of their lives interact and what their meanings for their entire lives are In truth modern society faced with multiple risks of development has to be controlled by the wisdom or rationality of collective ethics principles in order to grant individual satisfaction Its means of development through cutting edge technology can contribute to human accomplishments but also to human downfalls Thus in a modern culture responsible control of technology becomes mandatory In today s world it is impossible to talk about individual satisfaction without collective morals without the collective responsibility that guides the directions of development of humankind This book discusses the issue of quality of life and sustains a pragmatic vision of the pursuit of happiness and well being based on changes aimed at the continual improvement of one s interior and exterior universe

Economic Transformation in Eastern Europe and East Asia Herbert Hax, Wolfgang Klenner, Willi Kraus, Tomoo Matsuda, Takafusa Nakamura, 2012-12-06 The economic transformation taking place in Eastern Europe and Asia is in particular a challenge for Japan and Germany because these two states as the immediate neighbors of the developing regions are directly affected and also because they are the strongest economic powers in their regions and have the necessary potential to influence developments there Japan and Germany are affected in many ways both positively and negatively Should the economic and social transformation run into difficulties leading to economic and political chaos perhaps even to armed conflicts then economy and social fabric of the prosperous neighbors would doubtlessly suffer In the past Japan and the South East Asian region have already experienced how economic problems in China caused millions of Chinese to seek their fortunes in other countries An economic and political destabilization of China would today probably have even greater effects on migration flows Similar effects can be expected in Europe if the transformation process in Eastern Europe should fail But even less dramatic developments in Eastern Europe and East Asia can have deleterious consequences for Germany and Japan Both nations are linked closely to the transforming economies near them though at a fairly low level A reduction in trade with them a refusal to service debts and other economic frictions ensuing out of economic and political troubles would of necessity

hamper the prosperity of Japan and Germany. A successful transformation process would without doubt benefit all economic partners to a considerable extent.

Language Policy, Culture, and Identity in Asian Contexts Amy B.M. Tsui, James W. Tollefson, 2017-09-25. Bringing together scholarship on issues relating to language, culture, and identity with a special focus on Asian countries, this volume makes an important contribution in terms of analyzing and demonstrating how language is closely linked with crucial social, political, and economic forces, particularly the tensions between the demands of globalization and local identity. A particular feature is the inclusion of countries that have been under-represented in the research literature, such as Nepal, Bangladesh, Brunei, Darussalam, Pakistan, Cambodia, Vietnam, and Korea. The book is organized in three sections: Globalization and its Impact on Language Policies; Culture and Identity; Language Policy and the Social Reconstruction of National Cultural Identity. Language Policy and Language Politics: The Role of English. Unique in its attention to how the domination of English is being addressed in relation to cultural values and identity by non-English speaking countries in a range of sociopolitical contexts, this volume will help readers to understand the impact of globalization on non-English speaking countries, particularly developing countries which differ significantly from contexts in the West in their cultural orientations and the way identities are being constructed. *Language Policy, Culture, and Identity in Asian Contexts* will interest scholars and research students in the areas of language policy, education, sociolinguistics, applied linguistics, and critical linguistics. It can be adopted in graduate and advanced undergraduate courses on language policy, language in society, and language education.

The Great Cauldron Marie-Janine Calic, 2019-06-10. A sweeping history of southeastern Europe from antiquity to the present that reveals it to be a vibrant crossroads of trade, ideas, and religions. We often think of the Balkans as a region beset by turmoil and backwardness, but from late antiquity to the present it has been a dynamic meeting place of cultures and religions. Combining deep insight with narrative flair, *The Great Cauldron* invites us to reconsider the history of this intriguing, diverse region as essential to the story of global Europe. Marie-Janine Calic reveals the many ways in which southeastern Europe's position at the crossroads of East and West shaped continental and global developments. The nascent merchant capitalism of the Mediterranean world helped the Balkan knights fight the Ottomans in the fifteenth century. The deep pull of nationalism led a young Serbian bookworm to spark the conflagration of World War I. The late twentieth century saw political Islam spread like wildfire in a region where Christians and Muslims had long lived side by side. Along with vivid snapshots of revealing moments in time, including Kruj in 1450 and Sarajevo in 1984, Calic introduces fascinating figures rarely found in standard European histories. We meet the Greek merchant and poet Rhigas Velestinlis, whose revolutionary pamphlet called for a general uprising against Ottoman tyranny in 1797. And the Croatian bishop Ivan Dominik Stratiko, who argued passionately for equality of the sexes and whose success with women astonished even his friend Casanova. Calic's ambitious reappraisal expands and deepens our understanding of the ever-changing mixture of peoples, faiths, and civilizations in this much-neglected nexus of empire.
