Robotics Fernando S. Osório, Denis Fernando Wolf, Kalinka Castelo Branco, Valdir Grassi Jr., Marcelo Becker, Roseli Romero, 2015-11-30 This book constitutes the refereed proceedings of the Joint Conference on Robotics LARS SBR Robocontrol 2014 held in São Carlos Brazil in October 2014 The 8 revised full papers presented were carefully reviewed and selected from 76 submissions The selected papers present a complete and solid reference of the state of the art of intelligent robotics and automation research covering the following areas autonomous mobile robots tele operated and telepresence robots human robot interaction trajectory control for mobile robots autonomous vehicles service oriented robotic systems semantic mapping environment mapping visual odometry applications of RGB D sensors humanoid and biped robots Robocup soccer robots robot control path planning multiple vehicles and teams of robots *Human Interface and the Management of Information. Information and Knowledge in Applications and Services* Sakae Yamamoto, 2014-06-06 The two volume set LNCS 8521 and 8522 constitutes the refereed proceedings of the Human Interface and the Management of Information thematic track held as part of the 16th International Conference on Human Computer Interaction HCII 2014 held in Heraklion Greece in June 2014 jointly with 13 other thematically similar conferences The total of 1476 papers and 220 posters presented at the HCII 2014 conferences were carefully reviewed and selected from 4766 submissions These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems The papers accepted for presentation thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas This volume contains papers addressing the following major topics e learning and e education decision support information and interaction in aviation and transport safety security and reliability communication expression and emotions art culture and creativity information and knowledge in business and society **Perspectives and Considerations on the Evolution of Smart Systems** Habib, Maki K., 2023-08-01 Smart systems are rapidly evolving and finding ways to influence different aspects of human life industry and the environment Smart systems based on available data should have the ability to predict and be adaptive which leads to performing reliable smart actions Smartness and learning capabilities are essential characteristics describing smart systems besides connectivity and digital virtual cloudification technologies Perspectives and Considerations on the Evolution of Smart Systems discusses the latest edge development that informs and facilitates the next level of development It highlights how the evolving technologies and techniques are going to impact the developments in the field considering climate environment circular economy and ecosystems Covering topics such as dynamic difficulty adjustment intelligent control and serious games this premier reference source is an excellent resource for engineers computer scientists IT professionals developers data analysts students and educators of higher education librarians researchers and academicians **Advances in Automation, Signal Processing, Instrumentation, and Control** Venkata Lakshmi Narayana Komanapalli, N.

Sivakumaran,Santoshkumar Hampannavar,2021-03-04 This book presents the select proceedings of the International Conference on Automation Signal Processing Instrumentation and Control i CASIC 2020 The book mainly focuses on emerging technologies in electrical systems IoT based instrumentation advanced industrial automation and advanced image and signal processing It also includes studies on the analysis design and implementation of instrumentation systems and high accuracy and energy efficient controllers The contents of this book will be useful for beginners researchers as well as professionals interested in instrumentation and control and other allied fields **Social Robotics** Arvin Agah,John-John Cabibihan,Ayanna M. Howard,Miguel A. Salichs,Hongsheng He,2016-10-06 This book constitutes the refereed proceedings of the 8th International Conference on Social Robotics ICSR 2016 held in Kansas City MO USA in November 2016 The 98 revised full papers presented were carefully reviewed and selected from 107 submissions The theme of the 2016 conference is Sociorobotics Design and implementation of social behaviors of robots interacting with each other and humans In addition to technical sessions ICSR 2016 included three workshops The Synthetic Method in Social Robotics SMSR 2016 Social Robots A Tool to Advance Interventions for Autism and Using Social Robots to Improve the Quality of Life in the Elderly

Intelligent Systems for Rehabilitation Engineering Roshani Raut,Pranav Pathak,Sandeep Kautish,Pradeep N.,2022-01-05 INTELLIGENT SYSTEMS FOR REHABILITATION ENGINEERING Encapsulates different case studies where technology can be used as assistive technology for the physically challenged visually and hearing impaired Rehabilitation engineering includes the development of technological solutions and devices to assist individuals with disabilities while also supporting the recovery of the disabled who have lost their physical and cognitive functions These systems can be designed and built to meet a wide range of needs that can help individuals with mobility communication vision hearing and cognition The growing technological developments in machine learning deep learning robotics virtual intelligence etc play an important role in rehabilitation engineering Intelligent Systems for Rehabilitation Engineering focuses on trending research of intelligent systems in rehabilitation engineering which involves the design and development of innovative technologies and techniques including rehabilitation robotics visual rehabilitation physical prosthetics brain computer interfaces sensory rehabilitation motion rehabilitation etc This groundbreaking book Provides a comprehensive reference covering different computer assistive techniques for the physically disabled visually and hearing impaired Focuses on trending research of intelligent systems in rehabilitation engineering which involves the design and development of innovative technologies and techniques Provides insights into the role of intelligent systems in rehabilitation engineering Audience Engineers and device manufacturers working in rehabilitation engineering as well as researchers in computer science artificial intelligence electronic engineering who are working on intelligent systems *New Trends on System Science and Engineering* H. Fujita,S.-F. Su,2015-06-23 System science and engineering is a field that covers a wide spectrum of modern technology A system can be seen as a collection of entities and their interrelationships which forms a whole greater than the sum of the

entities and interacts with people organisations cultures and activities and the interrelationships among them Systems composed of autonomous subsystems are not new but the increased complexity of modern technology demands ever more reliable intelligent robust and adaptable systems to meet evolving needs This book presents papers delivered at the International Conference on System Science and Engineering ICSSE2015 held in Morioka Japan in July 2015 Some of the topics covered here include systems modeling tools and simulation cloud robotics and computing systems systems safety and security smart grid human systems and industrial organization and management and novel applications of systems engineering and systems architecture Capturing as it does the latest state of the art and challenges in system sciences and its supporting technology this book will be of interest to all those involved in developing and using system science methodology tools and techniques

Distributed, Ambient and Pervasive Interactions Norbert A. Streitz, Shin'ichi Konomi, 2023-07-08 This book constitutes the refereed proceedings of the 11th International Conference on Distributed Ambient and Pervasive Interactions DAPI 2023 held as part of the 25th International Conference on Human Computer Interaction HCII 2023 which took place as an hybrid event in Copenhagen Denmark in July 2023 A total of 1578 papers and 396 posters have been accepted for publication in the HCII 2023 proceedings from a total of 7472 submissions The 60 papers included in the DAPI 2023 proceedings were organized in topical sections as follows Part I Designing and evaluating intelligent environments user experience in intelligent environments pervasive data Part II Smart cities and environment preservation media art and culture in intelligent environments supporting health learning work and everyday life 2014
