Cognitive Semantics of Artificial Intelligence: A New Perspective Alexander Raikov, 2021-02-02 This book addresses the issue of cognitive semantics aspects that cannot be represented by traditional digital and logical means The problem of creating cognitive semantics can be resolved in an indirect way The electromagnetic waves quantum fields beam of light chaos control relativistic theory cosmic string recognition category theory group theory and so on can be used for this aim Since the term artificial intelligence AI appeared various versions of logic have been created many heuristics for neural networks deep learning have been made new nature like algorithms have been suggested At the same time the initial digital logical and neural network principles of representation of knowledge in AI systems have not changed a lot The researches of these aspects of cognitive semantics of AI are based on the author's convergent methodology which provides the necessary conditions for purposeful and sustainable convergence of decision making **An Introduction to Archaeological**

Chemistry T. Douglas Price, James H. Burton, 2010-10-17 Archaeological chemistry is a subject of great importance to the study and methodology of archaeology This comprehensive text covers the subject with a full range of case studies materials and research methods With twenty years of experience teaching the subject the authors offer straightforward coverage of archaeological chemistry a subject that can be intimidating for many archaeologists who do not already have a background in the hard sciences With clear explanations and informative illustrations the authors have created a highly approachable text which will help readers overcome that intimidation Topics covered included Materials rock pottery bone charcoal soils metals and others Instruments microscopes NAA spectrometers mass spectrometers GC MS XRF XRD Case Studies Provenience Sediments Diet Reconstruction Past Human Movement Organic Residues The detailed coverage and clear language will make this useful as an introduction to the study of archaeological chemistry as well as a useful resource for years after that introduction *New Perspectives on Narrative and Multimodality* Ruth Page, 2009-09-10 This study investigates the richly

diverse but integrated semiotic potential of storytelling Unlike other interdisciplinary approaches to narrative studies which have privileged the study of words in storytelling this unique collection provides a much needed analysis of how narrative operates using combinations of visual typographic aural gestural and haptic resources Although both multimodal theory and narrative studies have been invigorated by a variety of theoretical approaches this volume seeks to avoid a single dominant paradigm Instead the contributors use literary criticism linguistics and new media frameworks in a series of critical studies that are directly engaged with a range of multimodal stories The contributors analyze works that include oral accounts of personal experience opera cartoons print literature and new media forms of storytelling such as experimental digital fiction and fanfiction **Adolescent Idiopathic Scoliosis: Advances and new Perspectives** Daniel Rodriguez-Almagro, Marek Lyp, Alfonso Javier Ibáñez-Vera, 2024-12-24 Scoliosis the most common spinal malformation in children and adolescents

affects approximately 2% of these populations worldwide While its treatment has remained unchanged for decades

unfortunately there is still no cure available Clinicians typically rely on physical therapy orthotic braces and exercise to reduce the spinal curves and prevent further malformation development but these approaches don t always yield successful results It is imperative to gather new knowledge to update our strategies and explore alternatives to invasive spinal surgeries
