India-Russia Post Cold War Relations Chandra Rekha, 2017-04-28 Post Cold War international relations have undeniably been a litmus test for the bilateral relations between India and Russia With the emergence of a new international system the foreign policies of both countries vacillated to explore new avenues of partnerships with other international players an opportunity that otherwise proved effective to a large extent National priorities and the geo political architecture remodelled by the US thus compelled New Delhi and Moscow to pursue a foreign policy that moved away from serving the interests of each other While defining the trends in the bilateral relations between the two countries the strategic community has questioned whether the relationship can remain as special and strategic as it had been in the past Are both countries still as relevant to one another as they once were As the constant debate revolves around these questions the two entities have however indicated a certain level of distinguishing characteristics in order to address the complexities and challenges in the partnership and have acknowledged that their relationship is not only special but also indispensable What has also continued to remain undamaged and an integral part of the bilateral relations is mutual trust understanding and concern thus resulting in maturity and pragmatism irrespective of the uncertainties that the two countries face It is in this context that the new stage in the bilateral relations between the two countries requires a thorough assessment It stands to reason that with the developments that are taking place in the current international milieu there is a need for India and Russia to reemphasise their strong strategic partnership goodwill and diplomatic trust that have stood the test of time This book undertakes a serious assessment of the strategic partnership in the contemporary international set up The seven chapters of the book attempt to address the myriad challenges through detailed analyses and evaluation of the partnership between India and Russia in various spheres including the political defence economic nuclear energy science and technology security and strategic engagement Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka

Foreign Policy Of India -7E V N Khanna, 2018 This authoritative work on India s foreign policy rests on the fundamental values of international relations that India has cherished Efforts have been made to analyze these values and to evaluate to what extent these have been implemented and to what extent these have been effective This edition of the book has been updated to include new issues that have emerged and have come to dominate India s foreign policy concerns India s stance on Climate Change has undergone an evolution in the last two decades which is

important to understand Similarly India's relation with Israel which was tepid and limited till 1992 has undergone a radical transformation ever since India has forged a close and important partnership with Israel which will be critical going forward for it especially in the defence sector India and Israel have also come to share a sense of solidarity being common victims of terrorism as was highlighted by the 26/11 Mumbai terror attacks of 2008 Thus it is important to take stock of India's growing relationship with Israel Furthermore the rise of China is the biggest geopolitical challenge India faces in this century This edition discusses how India is seeking to formulate a foreign policy in accordance with its emergence as a major international power It also discusses India's relations with its neighbours in South Asia

India's Foreign Policy, 2009 In this volume scholars specializing in different dimensions of foreign policy analysis examine the dynamics of India's international relations The volume reviews the economic growth that has propelled it to the status of a globally recognized power and examines its nuclear policy and maritime strategy as a register of its present capabilities and future aspirations The news media often neglected in the study of international politics are studied as an important index to and catalyst for the formulation of government policies The volume also comprehensively analyses India's bilateral and multilateral relations their influence on the stability of the subcontinent their bearing on the country's international presence and their relevance for its political ambitions

Indo-Russian Military and Nuclear Cooperation Jerome M. Conley, 2001-01-01 In this book Jerome M Conley argues that strained Indo American relations stem from a deep nexus of historical factors Conley begins his examination of the delicate balance of power in the region by looking back to the Moscow New Delhi deal during the Cold War He argues that the dialogue between the United States India and Russia that was established during this era has persisted only because of American ambivalence short term Indian needs and Russian economic trends Consequently the United States must sow the seeds for long term trust and cooperation with India to ensure limited and controlled nuclear expansion This book will appeal to international affairs and security studies scholars foreign policy historians and anyone interested in exploring the complexities of regional strategic arms control

Complexities and Challenges of Nuclear India Dr. Roshan Khanijo, 2014-11-01 Four decades have passed since India conducted its first nuclear test Since then the world has undergone a transition both in terms of power dynamics and military warfare The emergence of New Nuclear and Threshold states has transformed the traditional military warfare making it more asymmetric Though the concept of nuclear deterrence in the American strategic thought has diminished but the Asian countries still consider nuclear weapons as an important strategy in combating conventional weaknesses This altered strategic space has created problems in the civilian and the military domains The emergence of economically strong China aiming for military modernization to achieve global reach through precision missiles is making Asia edgy A nuclear Pakistan which is constantly increasing its nuclear stockpile is creating stability instability paradoxes in Asia India which is also emerging as a powerful state needs to approach this dynamic shift in a holistic manner A strategic churning has begun in Asia and whether this will be in India's favour depends

on the strategic choices that India adopts China has revolutionized its Second Artillery through a process of Informationalisation and Modernisation and is diversifying the military technology which is having a cascading effect in Asia Pakistan through its nuclear policy of First Use its alleged use of Tactical Nuclear Weapons is making South Asia vulnerable to nuclear terrorism Under such conditions are there any gaps between India's nuclear doctrine and its force structure Can India's nuclear strategy counter China Is India capable of countering a Sino Pak nexus These are a few questions along with others which this book will try to unravel
