Research Handbook on International Insurance Law and Regulation Julian Burling,Julian M. Burling,Kevin Lazarus,2012 Global insurance and its rapidly evolving law and regulation demands international research To this aim the Handbook offers a truly international collection of essays Highly renowned experts analyze the key topics currently under international discussion and development While representing a diversity of national jurisdictions the focus lies on the largest insurance jurisdictions USA UK and Germany but newly important jurisdictions like Brazil and China are considered as well a most valuable and important contribution to international insurance law literature Manfred Wandt Director of the Insurance Law Institute Goethe University Frankfurt Germany This Research Handbook is published at an opportune time A global review of insurance law and regulation is underway Much reform happens locally with little reference to developments elsewhere and this Research Handbook brings the strands together It is a comprehensive review by distinguished authors from different backgrounds including both leading academics and practitioners They consider the definitions of insurance its economic underpinnings comparative law and regulations actual and proposed reforms the effects on underwriting and claims and how insurance is studied and taught Good laws and regulation benefit the market and its customers Bad laws and regulation do the opposite This book is required reading for all involved in the reform process David Hertzell Law Commissioner

Globalisation has had no greater impact in the commercial world than on insurance the law which governs it and the risks it seeks to address Those who inspired this publication and the contributing authors are to be thanked for providing such a necessary and useful reference source It covers so much of what insurance professionals need to be aware of in the insurance law world of the twenty first century Michael Gill President of the International Insurance Law Association Given its economic importance insurance is a field that has been underserved as an area of academic study This detailed book provides much needed coverage of insurance law and regulation in its international context Produced in association with Lloyd s it draws on the expertise both of academics and practising lawyers Containing 30 comprehensive chapters it provides in depth studies on key areas such as the role of international organisations the judicial interpretation of insurance contract clauses and transnational regulatory recognition It also provides thorough introductions to important jurisdictions including the EU US and Japan as well as focusing on newly emerging economies such as China and Brazil Specialist topics covered include regulation by and of Lloyd s the tort of bad faith in the US microinsurance and takaful insurance This well documented resource will appeal to academics and students in insurance law and regulation policymakers and private

practice lawyers The book also aims to stretch the imagination of anyone with an interest in insurance law and regulation providing detailed analysis and avenues for further investigation

Ansfield, 2025-08-19 Revelatory Deeply researched and masterfully told Brian Goldstone New York Times Book Review The explosive account of the arson wave that hit the Bronx and other American cities in the 1970s and its legacy today Ladies and gentlemen the Bronx is burning That legendary and apocryphal phrase allegedly uttered by announcers during the 1977 World Series as flames rose above Yankee Stadium seemed to encapsulate an entire era in this nation's urban history Across that decade a wave of arson coursed through American cities destroying entire neighborhoods home to poor communities of color Yet as historian Bench Ansfield demonstrates in *Born in Flames* the most destructive of the fires were not set by residents as is commonly assumed but by landlords looking to collect insurance payouts Driven by perverse incentives new government sponsored insurance combined with tanking property values landlords hired torches mostly Black and Brown youth to set fires in the buildings sometimes with people still living in them Tens of thousands of families lost their homes to these blazes yet for much of the 1970s tenant vandalism and welfare fraud stood as the prevailing explanations for the arson wave effectively indemnifying landlords Ansfield's book based on a decade of research introduces the term brownlining for the destructive insurance practices imposed on poor communities of color under the guise of racial redress Ansfield shows that as the FIRE industries finance insurance and real estate eclipsed manufacturing in the 1970s they began profoundly reshaping Black and Brown neighborhoods seeing them as easy sources of profit At every step Ansfield charts the tenant led resistance movements that sprung up in the Bronx and elsewhere as well as the explosion of popular culture around the fires from iconic movies like *The Towering Inferno* to hit songs such as *Disco Inferno* Ultimately they show how similarly pernicious dynamics around insurance and race are still at play in our own era especially in regions most at risk of climate shocks Übersicht der gesamten staats- und rechtswissenschaftlichen literatur... ,1874 Uebersicht der gesamten staats und rechtswissenschaftlichen litteratur ...
