New Age in Latin America, 2016-06-10 This book is at the crossroads where a New Age sensibility advancing like an ecumen of

worldwide spirituality without national cultural or ecclesiastical frontiers meets Latin America's syncretic religions practiced by groups of people with African or indigenous roots or developed from the tradition of popular Catholicism. The syncretic character of the two sensibilities makes both the New Age and popular religion behave like two syncretizing and syncretizable matrices of meaning. This book opens up a rich vein of debate with new dilemmas and discussions that will provide a framework for a new field of study in anthropology. What new ways of signifying living and experiencing religion is the New Age generating in Latin America? What are its limits? Contributors are Alejandra Aguilar Ros, Santiago Bastos Lizette Campechano, Sylvie P. Dron, Colombani Alejandro, Frigerio Jacques, Galinier Silas, Guerriero Cristina, Gutierrez Ziga Nahayeilli, B. Lindsey-Billingsley, 2019-12-13. The author T Lindsey Billingsley has compiled a no-nonsense philosophical study guide exploring racial origins, the African origins of humanity and prehistoric Kemetic influence throughout the world. The main focus of these studies is on the anthropological and physiological makeup of racial groups with in-depth research into both the Out of Africa theories and divine creationism myths. Billingsley supplies concrete evidence to support her conclusions on the true human experience in lieu of popular speculation and theory devoid of logic and sound proof. In this and subsequent volumes, the author will establish a new perspective of thinking that will tempt you to challenge the validity of theological creationism and evolution whilst substantiating a strong position on intelligent design and extraterrestrial intervention.
