and associated land HC 178 session 2004 05 ISBN 9780102931662 The 2005 report examined the process for selling the
Millennium Dome and associated land and the resulting deal and concluded that the resulting deal offered an integrated
solution for the regeneration of the Greenwich Peninsula and offered the Government a sensible exit strategy from the Dome
The development is still at an early stage and faces inherent risks and challenges which mean it is only possible to come to
firm conclusions about early progress compared to the initial plans rather than on the longer term outcomes The report finds
that The Dome has become a highly successful entertainment venue and a beacon for a new community on the Peninsula The
wider redevelopment of the surrounding land has been less successful Some commercial and educational developments are
underway earlier than planned initially The delivery of new housing has however fallen behind schedule It will be difficult for
the housing programme to recover the lost ground to meet original targets because the rate of building required to do so is
very demanding As a consequence of these delays the taxpayer s likely return from the redevelopment has fallen significantly
The structure of the deal means that the delays have affected the taxpayer more than the private sector The Government
should consider whether future deals can be structured to align better the interests of the public and private sectors
