The Rowman & Littlefield Handbook of Media Management and Business L. Meghan Mahoney, Tang Tang, 2020-12-15 The Rowman Littlefield Handbook of Media Management and Business connects research and industry practice to offer a strategic guide for aspiring and current media professionals in convergent environments. As a comprehensive one stop reference for understanding business issues that drive the production and distribution of content that informs, entertains and persuades audiences, aims to inspire and inform forward thinking media management leaders. The handbook examines media management and business through a convergent media approach rather than focusing on medium specific strategies. By reflecting media management issues in the information, entertainment, sports, gaming industries, contributed chapters explore the unique opportunities and challenges brought by media convergence while highlighting the fundamental philosophy, concepts and practices unchanged in such a dynamic environment. This handbook examines media management through a global perspective and encourages readers to connect their own diverse development to a broader global context. It is an important addition to the growing literature in media management with a focus on new media technologies, business management and internationalization. The True Story of Fake News Mark Dice, 2017-11-03 Is fake news being spread through social media as part of an information war? Are political operatives publishing disinformation to smear the opposition and help their own agendas? Who creates fake news, how does it spread and can it be stopped? What are the real world effects of fake news stories that go viral? Did it affect the outcome of the 2016 presidential election? Or is fake news a fake problem designed to justify tighter control over the mechanisms of sharing information online to drive audiences back to brand name media outlets because their audiences and influence are dwindling? Media analyst Mark Dice takes a close look at the fake news phenomenon and the implications of mega corporations like Facebook, Google and Twitter becoming the ultimate gatekeepers and distributors of news and information. You will see the powerful and deceptive methods of manipulation that affect us all as numerous organizations and political activists cunningly plot to have their stories seen, heard and believed by as many people as possible. The depths of lies, distortions and omissions from traditional mainstream media will shock you and now they're colluding with the top tech companies trying to maintain their information monopolies.
