

Women's History Month

Women's History Month is a time to celebrate and honor the achievements of women throughout history. It is celebrated every March in the United States and in many other countries around the world. Women's History Month was started in 1987 by Congress to recognize the contributions women have made to our society. During Women's History Month, people take time to recognize the amazing things women have done. We celebrate the accomplishments of women like the first woman to go into space, the first female doctors and lawyers, and the first women to run for president. We also remember the struggles women have faced and the work they have done to make the world a better place. Women's History Month is celebrated by having special events like lectures, speeches, and workshops. There are also art exhibits and musical performances dedicated to women's history. Schools often have special programs to honor the achievements of women. Many people put up posters or wear purple, green and white ribbons, which are the colors of the Women's History Month flag. In conclusion, Women's History Month is a time to celebrate the achievements of women and remember the struggles they have faced. It is celebrated every March to recognize the important role women have played in our society.

met Among the critical issues addressed Are good results permanent or do they fade over time Can they be replicated successfully under varied conditions Are programs cost effective and if so are the benefits seen immediately or only over the long term How can public support be garnered for a large upfront investment whose returns may not be apparent for years Some programs discussed in this volume were implemented only on a small experimental scale prompting discussion of their viability at the national level An important concern for social policy is whether one shot programs can lead to permanent results Early interventions may be extremely effective at reducing future criminal behavior as shown by the results of the High Scope Perry preschool program Evidence from the Life Skills Training Program suggests that a combination of initial intervention and occasional booster sessions can be an inexpensive and successful approach to reducing adolescent substance abuse Social Programs That Work also acknowledges that simply placing welfare recipients in jobs isn't enough they will also need long term support to maintain those jobs The successes and failures of social policy over the last thirty five years have given us valuable feedback about the design of successful social policy Social Programs That Work represents a landmark attempt to use social science criteria to identify and strengthen the programs most likely to make a real difference in addressing the nation's social ills
