for societal progress and ensuring universal access to quality education is integral to achieving Goal 4 of the United Nations Sustainable Development Goals (SDGs). The goal is to ensure inclusive and equitable quality education for all by 2030. This involves not only expanding access to education but also improving the quality of education to promote lifelong learning opportunities. AI has the potential to significantly contribute to the achievement of Goal 4. It is committed to exploring how AI may play a role in bringing more innovative practices transforming education and triggering an exponential leap towards the achievement of the Education 2030 Agenda. Providing broad coverage of recent technology driven advances and addressing a number of learning centric themes, the book is an informative and useful resource for researchers, practitioners, education leaders and policy makers who are involved or interested in AI and education. Research Anthology on Feminist Studies and Gender Perceptions Management Association, Information Resources, 2022-01-21

Global society has always been impacted by the perception of gender. While gender roles may differ in certain cultures, many cultures around the world have allowed for the disempowerment and objectification of women. Women today still struggle for gender equality, whether it be professionally, socially, or even legally. To examine feminism thoroughly, however, thorough analysis must be conducted on all genders and perceptions. The Research Anthology on Feminist Studies and Gender Perceptions explores the application of feminist theory and women empowerment in the 21st century and the role that gender plays in society. This book analyzes media representation, gender performativity, and theory to present a comprehensive view of gender and society. Covering topics such as masculinity, women empowerment, and gender equality, this two-volume comprehensive major reference work is an essential resource for sociologists, community leaders, human resource managers, activists, students, and professors of higher education, researchers, and academicians. **Journals of the House of Lords** Great Britain House of Lords, 1718

Building Brand Communities Carrie Melissa Jones, Charles Vogl, 2020-06-09 An authentic brand community is more than just people buying your product or working alongside one another. This book articulates the critical roles of mutual concern, common values, and shared experiences in creating fiercely loyal customer and collaborator relationships. Smart organizations know that creating communities is the key to unlocking unprecedented outcomes. But too many mistakenly rely on superficial transactional relationships as a foundation for community when really people want something deeper. Carrie Melissa Jones and Charles Vogl argue that in an authentic and enriching community, members have mutual concern for one another, share personal values, and join together in meaningful shared experiences, whether online or off. On the deepest level, brands must help members grow into who they want to be. Jones and Vogl present practices used by global brands like Yelp, Etsy, Twitch, Harley Davidson, Salesforce, Airbnb, Sephora, and others to connect in a meaningful way with the people critical for their success. They articulate how authentic communities can serve organizational goals in seven different areas.

innovation talent recruitment customer retention marketing customer service building transformational movements and creating community forums They also reveal principles to grow a new brand community to critical mass This is the first comprehensive guide to a crucial differentiator that gives organizations access to untapped enthusiasm and engagement

Digital Leadership in Higher Education Josie Ahlquist, 2023-07-03 Effective leadership means we must bring our values and mission not just soundbites to our activity in the digital sphere And it's not as hard as you may think thanks to the very practical examples and exercises Josie Ahlquist has given us in this book Brandon Busted President University Partners Kaplan Inc Often higher education leaders see social media as a burden *Digital Leadership in Higher Education* should be required reading in any leadership program because it clearly demonstrates how social media can and should extend leadership rather than be a burden for it Russell Lowery Hart President Amarillo College In this groundbreaking book Josie Ahlquist provides readers with the tools they need to take a strong values based approach to leadership in the various digital spaces vital to the world of higher education today Filled with real world examples and tools to negotiate this ever changing digital landscape the book fills an important niche in the literature A user manual for your digital leadership journey Each chapter includes tools and tactics as well as stories that bridge the gap between technology and connection with community This book doesn't have a recipe for cooking up the next viral video it offers lots of ways to stay true to individual and organizational values while engaging online Whether a college president dean of students associate professor or a program coordinator there is a need for leaders who aren't just early adopters and social media enthusiasts but authentic individuals who back up their technology use with a purposeful philosophy and a values based approach to their role *The Register of Thetford Priory* David Percy Dymond, 1995 **Gaming Democracy** Adrienne L. Massanari, 2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In *Gaming Democracy* Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming *Gaming Democracy* is a novel contribution to our understanding of online

platforms and far right political activism
