Diversity, Equity and Inclusion in Honors Education Graeme Harper,2019-01-15 In education sorting students according to attainment is common Such sorting clearly sets up the potential for exclusion based on the attainment ideals and on the modes of selection Ideals of inclusion suggest diversity and those of equity by reference to impartiality suggest freedom from bias Honors education which celebrates excellence and references honor and all that word and concept infers heightens and

promotes the principled recognition of attainment giving rise to questions of diversity equity and inclusion The Organization for Economic Co Operation and Development OECD in its Ten Steps to Equity in Education notes that inclusion is intertwined with fairness How can honors education and in the case of the discussions in this book largely honors in US higher education promote fairness be diverse and support equity If it does not do so how can it at all claim to be offering a principled version of what the National Collegiate Honors Council USA says are opportunities for measurably broader deeper and more complex learning centered and learner directed experiences for its students In 2015 the National Society for Minorities in Honors www.nsfmih.org was launched in the USA to specifically explore support and promote diversity equity and inclusion in and across honors colleges and programs The first annual NSFMIH conference was held at Oakland University Michigan This book began at that inaugural conference and has been enhanced by enthusiastic contributions beyond that event as well

Education Reform and the Quest for Excellence Lok Sang Ho,Paul Morris,Yue-ping Chung,2005-11-01 This book investigates and analyses critical issues in education reform and discusses possible pitfalls in the current global drive to promote excellence Instead of documenting the successes and frustrations encountered by education reformers in specific jurisdictions this book aims to offer directions for education reformers and sets out to be prescriptive rather than descriptive While the cases covered here are focused on Hong Kong they are no less useful in throwing light upon the direction of education reform all over the world The first section of the volume Conceptual Framework provides the theoretical underpinnings for the design and implementation of education reform The next two sections Reform of Tertiary Education and Experiments Dilemmas and Risks in Secondary Schools look at reform at the tertiary and secondary levels in greater detail The final section Ideals vs Reality the Interplay of Diverse Interests and Diverse Perceptions looks at the conflicting goals and perceptions of different stakeholders with a concluding chapter that summarizes the main lessons to be learnt This book will be of interest to scholars educators parents policymakers politicians and all who are concerned about our younger generation and their future The editors Lok Sang Ho Paul Morris and Yue ping Chung are to be congratulated on producing a volume which is both hard hitting and insightful about education reforms in Hong Kong The range of experiences of the contributing authors contribute to a most interesting mix of perspectives about education reform The focus is squarely on Hong Kong in terms of general policy and reform issues followed by more specific chapters dealing with issues of graduate teachers English as a medium of instruction and the role of the media However the issues raised are very applicable to many countries This book is a valuable contribution to the literature on education reform Professor Colin J Marsh Curtin University Perth Western Australia *The College Board College Handbook 2006* College Board,2005-07-20 The easy way to find and compare schools fast **Writing Assessment and the Revolution in Digital Texts and Technologies** Michael R.
