Transformiert Euch! Ingo Weber, Chris Bakker, Roland Werring, Roeland Werring, 2019-11-11 Digitalisierung Künstliche Intelligenz und andere Schlagworte prägen unsere Geschäftswelt und führen zur Veränderung gängiger Strukturen. Auch die Versicherungsbranche ist davor nicht gefeit. Die international boomende InsurTech-Bewegung sowie die großen Technologieunternehmen stellen die Geschäftsmodelle der alteingesessenen Versicherer infrage und rütteln an den Grundmauern der Versicherungsindustrie. Dieses Buch zeigt anschaulich, auf warum die Versicherer dabei sind, den Kulturwandel in der Branche zu verschlafen, und warum sie dringend auf die digitale Revolution und die Plattform Economy reagieren müssen. Der Wandel hin zu technologiegetriebenen Plattformen scheint unausweichlich, um mit den neu aufkommenden Startups Schritt halten zu können. Die Autoren haben für dieses Buch zahlreiche spannende Interviews mit führenden CEOs sowie mit renommierten Digitalexperten und internationalen Investoren geführt.

Startup Finance 2.0 Sam Ghosh, 2025-08-29 Traditional corporate financial theories and tools are based on matured companies with the assumption that the companies are going concerns. Going Concern refers to the assumption that a company will continue to operate indefinitely with no intention or necessity of liquidation or cessation of operations in the foreseeable future. The problem is that the Going Concern assumption does not hold for startups due to the inherent uncertainty associated with startups. Traditional financial education and resources usually meant for analysts and accountants aren't ideal for entrepreneurs. They focus on analyzing past data from established businesses, not on making forward-looking decisions in the uncertain and highly dynamic environment of startups. Entrepreneurs also often struggle to prioritize the allocation of resources between seemingly urgent matters and matters that are important for the long-term value of the startup. Thus, this book takes a value-oriented approach to startup finance. The book is designed to build the financial intuition that an entrepreneur needs to prioritize matters vital for the long-term value of the company, raise capital, and allocate capital for

value maximization It also looks at finance from a value creation point of view and covers specific methods especially suited for startups from investment assessment to valuation to fundraising to managing day to day finances **Popular Science**, 1999-01 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better
