Aimed at students with little or no prior marketing knowledge, this book outlines a step by step framework for effective product marketing. This book will bring together information on strategic planning, market research, goal setting, marketing theory, and developing and communicating the competitive advantage and brand image. After reading this third edition, students will be able to construct a strategic marketing plan based on meeting specific organizational goals. Their plan will include detailed objectives and tactics to achieve the strategic vision. This third edition includes additional coverage on how technology and artificial intelligence (AI) have affected strategy, value creation in a time of rising costs, the need for strategic flexibility due to rapidly changing external conditions, and the use of social media data and sentiment to assess consumer behavior and desires.
