Television on Demand MJ Robinson, 2017-06-01 Since 2010 curation has become a marketing buzzword Wrenched from its traditional home in the world of high art everything from food to bed linens to dog toys now finds itself subject to this formerly rarified activity Most of the time the term curation is being inaccurately used to refer to the democratization of choice an inevitable development and side effect of the economics of long tail distribution However as any true curator will tell you curation is so much more than choosing it relies upon human intelligence agency evaluation and carefully considered criteria an accurate if utopian definition of the much abused and overused term

Television on Demand examines what happens when curation becomes the primary way in which media users or viewers engage with mass media such as journalism music cinema and most specifically television Mass media s economic model is based on mass audiences not a cornucopia of endless options from which individuals can customize their intake The rise of a curatorial culture where viewers create their own entertainment packages and select from a buffet of viewing options and venues has caused a seismic shift for the post network television industry one whose ultimate effects and outcomes remain unknown Curatorial culture is a revolutionary new consumption ecology one that the post network television producers and distributors have not yet figured out how to monetize as they remain in what anthropologists call a liminal state of a rite of passage no longer what they used to be but not yet what they will become How does an advertiser supported medium find leave alone quantify viewers who DVR This is Us but fast forward through the commercials have a season pass to The Walking Dead via iTunes to watch on their daily commutes are a season behind on Grey s Anatomy via Amazon Prime but record the current season to watch after they re caught up binge watched Orange is the New Black the day it dropped on Netflix are watching new to them episodes of Downton Abbey on pbs org never miss PewDiePie s latest video on YouTube graze on Law examines the response of the industry its regulators its traditional audience quantifiers and new digital entrants to the ecosystem of the empowered viewer and considers the viable future s of this crucial culture industry
