to a firm and using trademarks for tracking innovation They also consider the connections between university based R D and business start ups and the potential impacts of innovation on income distribution The research suggests strategies for expanding current measurement frameworks to better capture innovative activity including developing more detailed tracking of global value chains to identify innovation across time and space and expanding the measurement of innovation s impacts on GDP in fields such as consumer content delivery and cloud computing Monthly Indonesian Press Survey ,1956

Screen Distribution and the New King Kongs of the Online World Stuart Cunningham,Jon Silver,2013-07-19

Drawing on comparisons with historical shake ups in the film industry Screen Distribution Post Hollywood offers a timely account of the changes brought about in global online distribution of film and television by major new players such as Google YouTube Apple Amazon Yahoo Facebook Netflix and Hulu **Disruptive Business** Alexander Manu,2016-05-23 Disruptive Business is a provocative and insightful redefinition of innovation as an outcome of human behaviour a dynamic in constant change requiring the shaping of new responses in business and the economy Alexander Manu believes that organizations must treat innovation not as a process to be managed but as an outcome that changes people s lives In Disruptive Business he explains how innovation is the moment when human behaviour is changed by a particular invention discovery or event This position challenges the current understanding of innovation as well as the current ecology in which innovation operates in organizations its management methods tools language focus and metrics The challenge extends to some of the labels currently applied to innovation typologies such as disruptive innovation seen today as addressing purely the technological side of an invention rather than the more complex motivational and behavioural side Alexander Manu considers that a disruption is not manifest in the moment a new technology is introduced The disruption is the human being and manifest only when human motivation embraces the technology and uses it to modify and improve everyday life Our acceptance and appropriation of new technologies creates the business disruption Manu makes the case that successful innovation outcomes are answers to conscious or subconscious goals residing in human motivation and motivation starts in desire This position is consistent with the history of innovations that have changed improved and reshaped human life and also consistent with their roots and ethos Humans are a perpetually wanting animal bound to desire to seek media for a better self and to need innovation In this dynamic innovation is the constant and business is the variable The role of business is to create the tools objects and services through which people can manifest what they want and who they are The book provides a new perspective of current behavioural disruptions which are relevant to the continuity of business as well as a set of practical methodologies for business design aimed at creating innovation outcomes of value to users *On-Demand Culture* Chuck Tryon,2013-07-18 The movie industry is changing rapidly due in part to the adoption of digital technologies Distributors now send films to theaters electronically Consumers can purchase or rent movies instantly online and then watch them on their high definition televisions their laptops or even their cell phones Meanwhile social media technologies allow independent

filmmakers to raise money and sell their movies directly to the public All of these changes contribute to an on demand culture a shift that is radically altering film culture and contributing to a much more personalized viewing experience Chuck Tryon offers a compelling introduction to a world in which movies have become digital files He navigates the complexities of digital delivery to show how new modes of access online streaming services like YouTube or Netflix digital downloads at iTunes the popular Redbox DVD kiosks in grocery stores and movie theaters offering digital projection of such 3 D movies as Avatar are redefining how audiences obtain and consume motion picture entertainment Tryon also tracks the reinvention of independent movies and film festivals by enterprising artists who have built their own fundraising and distribution models online Unique in its focus on the effects of digital technologies on movie distribution On Demand Culture offers a corrective to address the rapid changes in the film industry now that movies are available at the click of a button
