Proceedings of the 18th European Conference on Game-Based Learning Helga Dis Isfold Sigurdardottir, Robin Isfold Munkvold, A Scoping Study Into Perceptions of Phonological Pedagogy in Rural Ghana Christopher John Counihan, 2010-01-27 Ghana's education system is in a state of transition. Since the introduction of the Free and Compulsory Universal Basic Education (FCUBE) initiative in 1995, the country has struggled to meet with the demands of providing accessible schooling for children at any level. Moreover, with the underdevelopment of early years and primary provision, more children face slipping through the net. The battle to get children into schools and keep them there is proving to be problematic across the country. As a result, children are losing out on vital core learning experiences, particularly literacy. English is the medium of instruction in Ghana and is taught in schools from the primary level. However, with a blend of English and mother tongue instruction, children are finding it significantly harder to grasp the basic skills. As a result, support from NGOs and teaching professionals have sought to find practical solutions through vis-à-vis and reciprocal partnerships.

The text begins by providing a brief history of school-based SLP services. The foundations of school services are highlighted, including the legal mandates set forth in the Individuals with Disabilities Education Improvement Act (IDEA), Every Student Succeeds Act (ESSA), Americans with Disabilities Act (ADA), and landmark court cases that have influenced school services, such as the 2023 *Midtown Hensen v. Hensen* court ruling regarding evidence-based practices. Pedagogical features include related vocabulary at the beginning of each chapter to promote equity in comprehension, end-of-chapter summaries with guiding questions to reinforce important information, facilitate class discussions, and enhance understanding. Concrete real-life success stories from public school SLPs and links to useful strategies, materials, and resources. This comprehensive textbook addresses issues paramount to school-based SLPs: Options to expand and diversify service delivery models; Step-by-step instructions to implement a workload analysis; Examples of IEP goals that support flexible scheduling and workload solutions; Tables that describe evidence-based practices and provide links to the supportive research; Template for writing IEP goals that align with IDEA mandates; Methods for assessing multilingual language learners, including dynamic, authentic, and criterion-referenced tools; Guidance for implementing proactive behavior management, conflict resolution, professional collaboration, conferencing, and counseling, and cultural competencies; Evidence bases that link language literacy and the achievement of school standards. New to the Fifth Edition: New content regarding COVID-19 impacts and the expansion of telepractice; Current references throughout that reflect state-of-the-art research; Updated evidence-based content for practices in the areas of articulation and phonology, language and literacy, voice, feeding, and swallowing, augmentative and alternative communication, social, and cognitive aspects of
