Entertainment Science Thorsten Hennig-Thurau, Mark B. Houston, 2018-08-01. The entertainment industry has long been dominated by legendary screenwriter William Goldman's 'Nobody Knows Anything' mantra, which argues that success is the result of managerial intuition and instinct. This book builds the case that combining such intuition with data analytics and rigorous scholarly knowledge provides a source of sustainable competitive advantage: the same recipe for success that is behind the rise of firms such as Netflix and Spotify but has also fueled Disney's recent success. Unlocking a large repertoire of scientific studies by business scholars and entertainment economists, the authors identify essential factors, mechanisms, and methods that help a new entertainment product succeed. The book thus offers a timely alternative to 'Nobody Knows' decision making in the digital era while coupling a good idea with smart data analytics and entertainment theory. It cannot guarantee a hit, but it systematically and substantially increases the probability of success in the entertainment industry. *Entertainment Science* is poised to inspire fresh new thinking among managers, students of entertainment, and scholars alike.

Thorsten Hennig-Thurau and Mark B. Houston, two of our finest scholars in the area of entertainment marketing, have produced a definitive research-based compendium that cuts across various branches of the arts to explain the phenomena that provide consumption experiences to capture the hearts and minds of audiences.

Morris B. Holbrook, W. T. Dillard, Professor Emeritus of Marketing, Columbia University. *Entertainment Science* is a must-read for everyone working in the entertainment industry today, where the impact of digital and the use of big data can't be ignored anymore.
