Scholarship and Loan Program.85-2 United States. Congress. House Education and Labor, 1958 **Faith, Scholarship, and Culture in the 21st Century** Alice Ramos, Marie I. George, 2002 While some intellectuals at the end of the nineteenth century argued that scientific progress would eventually cause the demise of religion it is evident that this has not been the case and that contemporary science is in fact not necessarily inimical to a religious worldview So a fruitful dialogue between science and religion has become a reality But there is also a more fundamental question that arises which is not simply the relationship of the sciences or of other disciplines to religion but rather whether faith can and should have an impact on teaching and research The majority of the essays in this volume hold that the Christian faith provides definite cognitive advantages and that to leave one s faith at the entrance of the campus thus separating faith from reason leads to a schizophrenic view of the Christian s intellectual life This volume thus shows how the religious faith of intellectuals not all of whom are Christian exercises a real influence on their scholarship In consonance with the thought of Pope John Paul II it is the contention of the scholars whose essays make up this volume that a faith that imbues research and teaching will effect a

transformation not only in themselves but also in their students and eventually in society Hence a faith that is fully received thought out and lived will penetrate culture and there is no doubt that present day culture stands in need of transformation In fact the encyclical *Fides et Ratio* from which a number of the essays draw inspiration attributes the secularization of the West in great part to the separation of faith from culture Jacques Maritain himself more than fifty years ago recognized that modern and contemporary culture had severed its ties with the sacred and in so doing had turned its back on humanity Now in the twenty first century as always human beings have a profound need for meaning and transcendence a need which scholarly reflection such as that found in this volume can help to satisfy In addition to the editors the contributors are David Arias Jr Mariano Artigas Gavin T Colvert John Goyette Frederick Erb III Heather McAdam Erb Alfred J Freddoso Jeanne M Heffernan Leon Klenicki Ralph McInerny John F Morris Warren Murray Peter A Pagan Teresa I Reed Robert Royal James V Schall S J William Sweet and Dallas Willard Alice Ramos and Marie I George are both Associate Professors of Philosophy at St John s University

Diekema, 2000 The dawning of the third millennium finds many Christian colleges and universities in a search for identity Coming to grips with the confused often maligned topic of academic freedom is an essential part of this search In this volume an unabashed defender of academic freedom offers well founded advice to an academy that has seemingly lost its way Drawing on forty years in higher education including twenty years as president of Calvin College Anthony Diekema reflects on the extensive scholarly literature on academic freedom against the backdrop of personal experience He develops the larger philosophical framework necessary for thinking about academic freedom but also offers pointed advice gleaned from specific events and challenges to academic freedom that he has personally confronted This balanced approach provides a seasoned perspective for those struggling with the subject of academic freedom in their own institutions In the course of the book Diekema develops a sound working definition of the concept of academic freedom assesses the threats it faces acknowledges the significance of worldview in its implementation and explores the policy implications for its protection and promotion in Christian colleges
