Medicines Management Nurses Nursing Healthcare Ebook:

Pharmacology and Medicines Management for Nurses E-Book George Downie, Jean Mackenzie, Arthur Williams, Caroline Milne, 2007-12-28 This title is directed primarily towards health care professionals outside of the United States. An understanding of medicines and their effects on patients remains a crucial area of nursing knowledge. This book provides a thorough foundation upon which nurses can build their clinical experience to achieve competence. It not only provides information on the actions of drugs on the body but also gives clear guidance on the practical aspects of medicines management in both hospital and community. Organisation of the text broadly follows the British National Formulary for ease of use. Management of medicines linked to their therapeutic use. Medicine administration linked with relevant care of patients where possible. Basic principles of clinical pharmacology underpin the therapeutic chapters. A chapter on the role of patients and carers is included. All content revised in the light of changes in drug therapy, clinical practice and medicines management including nurse prescribing. Key objectives for each chapter. Self assessment exercises with answers. More detail relating to palliative care nurse prescribing. A new section on Intensive Therapy. Totally redesigned in two colours with improved design and page layout and better illustrations.

Healthcare Transformation with Informatics and Artificial Intelligence Emmanouil Zoulias, Arie Hasman, Mowafa S. Househ, Martha Charalampidou, Andriana Magdalinou, 2023-07-15 Artificial intelligence (AI) is once again in the news with many major figures urging caution as developments in the technology accelerate. AI impacts all aspects of our lives but perhaps the discipline of Biomedical Informatics is more affected than most and is an area where the possible pitfalls of the technology might have particularly serious consequences. This book presents the papers delivered at ICIMTH 2023, the 21st International Conference on Informatics Management and Technology in Healthcare, held in Athens, Greece, from 1-3 July 2023. The ICIMTH conferences form a series of scientific events which offers a platform for scientists working in the field of biomedical and health informatics from all continents to gather and exchange research findings and experience. The title of the 2023 conference was Healthcare Transformation with Informatics and Artificial Intelligence, reflecting the importance of AI to healthcare informatics. A total of 252 submissions were received by the Program Committee of which 149 were accepted as full papers, 13 as short communications and 14 as poster papers after review. The papers cover a wide range of technologies and topics, including imaging, sensors, biomedical equipment and management and organizational aspects as well as legal and social issues. The book provides a timely overview of informatics and technology in healthcare during this time of extremely fast developments and will be of interest to all those working in the field.
