Medium Religion Faith Geopolitics Art:

Medium Religion Boris Grois, Peter Weibel, 2011 The original media used by religions were scriptures and books Today s religious movements operate predominantly with images that can be produced and distributed by means of electronic picture media such as video and television for example as religious propaganda The so called return of religions does not necessarily mean that more people have become religious Instead religions have moved from the private sphere of personal belief to the public sphere of visual communication They function as machines for the repetition and mass media distribution of mechanically produced images The publication *Medium Religion Faith Geopolitics Art* provides insight into the medial reproduction and significance of religion in particular its manifestations in geopolitical hot spots like the Middle East Asia Russia the U S and South America It comprises scientific contributions by renowned theorists and a documentation of the exhibition *Medium Religion - Faith, geopolitics, art* Boris Grois, Peter Weibel, 2008 *Kunst und Religion im Zeitalter des Postsäkularen* Silvia Henke, Nika Spalinger, Isabelle Zürcher, 2014-03-15 Bilden sich durch die sogenannte Wiederkehr des Religiösen in der bildenden Kunst heilige oder auch unheilige Allianzen Dieses Buch thematisiert die Zusammenhänge von zeitgenössischer Kunst und Religion im Zeitalter des Postsäkularen indem es das Feld zwischen privater Religiosität und kritischer Theologie auslotet Die Beiträge zeigen auf wie sich religiöse Fragen im säkularen Hochschulkontext als ästhetische Herausforderungen auch im konfessionellen Sinn bearbeiten lassen und welche Bedeutung künstlerischer Arbeit für die Vermittlung von Religion außerhalb von Kirche und Politik zukommt Damit richtet sich das Buch nicht nur an Künstler_innen sondern auch an Kulturwissenschaft Kunst und Religionspädagogik Theologie sowie Kuratorinnen und Kuratoren

Unscharfe Spuren? Jule Schaffer, 2019-03-20 Das Heilige ist zurück Man begegnet vielfältigen Motiven des Sakralen in Kunst und Alltag Können fotografische Bilder als neue Medien Heiliges anders zeigen und reformulieren Jule Schaffers interdisziplinäre Studie steht im Kontext dieser Wiederkehr der Religion und zeigt anhand medientheoretischer kunst und religionswissenschaftlicher Close Readings künstlerischer Ansätze seit den 1980er Jahren die vielfältigen Spuren in denen Heiliges im Fotografischen aufscheint inszeniert und adaptiert wird Die Bandbreite reicht von expliziter sakraler Bildlichkeit bis zu impliziten Referenzen und strukturellen Parallelen von Andres Serranos *Piss Christ* bis zu fotografischen Porträts von David Nebreda und Pierre Gonnord **Mattering Spiritualities** Silvia Battista, David Mason, 2025-03-31 *Mattering Spiritualities* brings together an array of international scholars and practitioners to explore spirituality in embodiment through the lens of performance performative writing and performance studies The book concerns spirituality and takes the body as the site of whatever it is we call spirituality The methodological assumption is that the opposition of body and spirit is a false binary that calls for re examination and revision It stems from the argument that people can deliberately shift their boundaries of perception and knowing through practice technologies and performative techniques that can alter the way in which they perceive the ecologies in which they are embedded This approach understands that careful attention to which

bodies are performing in any given scenario is crucial as is a sensitivity to the ramifications of any body's race gender class and biological ability Performance can therefore be regarded as anything through which individuals and collectives experiment with bodies as technologies Each chapter engages with such experiments to explore how bodies experience and relate to other bodies human and other than human but also how by mobilizing bodies and changing relationships between them practitioners can transform people spaces and places objects ecologies large and small and shift the borders of the known Such experiments can also reveal intersectional dynamics within given social political and biological borders offering new perspectives and angles of analysis This collection intends to serve transdisciplinary studies and to support varied learning and teaching environments for undergraduate postgraduate and PhD students

Religion übersetzen Marianne Grohmann, Ursula Ragacs, 2012 The history of Judaism Christianity and Islam has always been attended by an underlying tension between Hebrew Greek and Arabic original texts and their translations Out of this tension between canonized texts and changing interpretations a transformation has taken place that is typical of many religions Religious texts are transformed through translation and through their reception in different contexts Their interpretations are shaped by the respective contemporary contexts and at the same time contribute to processes of societal change The contributions to this volume address the hermeneutical task of forging links between the present day on the one hand and antique bible texts different stages in the history of their reception and interpretations of the Koran on the other They present exemplary analyses of texts from the perspectives of the Old and New Testament patristics Judaism Islamic studies systematic theology and translation science

Religion, Media, and Marginality in Modern Africa Felicitas Becker, Joel Cabrita, Marie Rodet, 2018-02-02 In recent years anthropologists historians and others have been drawn to study the profuse and creative usages of digital media by religious movements At the same time scholars of Christian Africa have long been concerned with the history of textual culture the politics of Bible translation and the status of the vernacular in Christianity Students of Islam in Africa have similarly examined politics of knowledge the transmission of learning in written form and the influence of new media Until now however these arenas Christianity and Islam digital media and old media have been studied separately Religion Media and Marginality in Modern Africa is one of the first volumes to put new media and old media into significant conversation with one another and also offers a rare comparison between Christianity and Islam in Africa The contributors find many previously unacknowledged correspondences among different media and between the two faiths In the process they challenge the technological determinism the notion that certain types of media generate particular forms of religious expression that haunts many studies In evaluating how media usage and religious commitment intersect in the social cultural and political landscapes of modern Africa this collection will contribute to the development of new paradigms for media and religious studies Contributors Heike Behrend Andre Chappatte Maria Frahm Arp David Gordon Liz Gunner Bruce S Hall Sean Hanretta Jorg Haustein Katrien Pye and Asonzeh Ukah
