Mediums Monks And Amulets Thai Popular Buddhism Today:

Mediums, Monks, and Amulets Pattana Kitiarsa, 2012-08-15 *Mediums Monks and Amulets* is a sophisticated yet accessible study of the state of popular Buddhist beliefs as they are practiced in Thailand today. Using a combination of focused case studies and analysis, Pattana Kitiarsa explores the nature and evolution of popular Buddhism over the past three decades by focusing on those individuals who practice, popularize, and profit from it. The case studies profiled in this book include prominent spirit mediums and magic monks, the lottery fever surrounding the posthumous cult of folk singer Phumphantuang Duangchan, the Chatukham Rammathap amulet craze, and the cult of wealth attributed to preeminent monk Luang Pho Khun. It also explores the history of both popular and official opinion surrounding supernatural Buddhism and its clashes with the rationalist, modernizing policies of Thailand's monarchy and government. *Mediums Monks and Amulets* contests the viewpoint that supernatural elements within popular Buddhism are a symptom of the decline of the religion. Instead, it argues that this hybridity between traditional Buddhist beliefs and elements from other religions is in fact a symptom of the health and wealth of Buddhism as it negotiates large-scale commercialization and global modernity. What others are saying: Pattana Kitiarsa's ability to weave his personal experiences in with sophisticated anthropological methods makes this book a fascinating and moving read. It is a welcome addition to the field and should be read by everyone interested in religion and modernity in Southeast Asia and beyond. Justin McDaniel, author of *Gathering Leaves and Lifting Words* (2008) and *The Lovelorn Ghost and Magical Monk* (2011). *Medium Monks and Amulets* sheds light on the changing landscape of contemporary Thai religion that is increasingly influenced by prosperity cults from both inside and outside the Buddhist establishment. This book helps us to make sense of the religious universe where magic monks, spirit mediums, amulets, deities, and other religious commodities of different sorts keep appearing endlessly. Phra Paisal Visalo, *Highlights*. Focused case studies on individual cult practices including magic monks, spirit mediums, amulet cults, and other prosperity cults. Written by the perspective of an anthropologist who is also a follower of popular Buddhism. Discusses not only the interaction of popular Buddhist practices with modern-day lawmakers but also of nineteenth-century royal interaction with supernatural cults. **Mediums, Monks, and Amulets** Phatthanā Kiti'āsā, 2012 **Thai Tattoo Magick** Sheer Zed, 2025-08-12 Details the author's profound encounters with Thai magick during 4 separate pilgrimages to Thailand. Militant Buddhism Peter Lehr, 2018-12-30 Against the backdrop of the ongoing Rohingya crisis this book takes a close and detailed look at the rise of militant Buddhism in Sri Lanka Burma and Thailand and especially at the issues of why and how around it We are well aware of Christian fundamentalism militant Judaism and Islamist Salafism Jihadism Extremist and violent Buddhism however features only rarely in book length studies on religion and political violence Somehow the very idea of Buddhist monks as the archetypical world renouncers exhorting frenzied mobs to commit acts of violence against perceived enemies of the religion seems to be outright ludicrous Recent events in Myanmar Burma but also in Thailand and Sri Lanka however indicate that a militant strand of Theravada Buddhism is on the rise How can this rise be explained and what role do monks play in that regard These are the two broad questions that this book explores

contemporary movements in Buddhist metaphysics Scott Stonington's gripping ethnography documents how Thai families attempt to pay back a debt of life to their elders through intensive medical care followed by a medically assisted rush from the hospital to home to ensure a spiritually advantageous last breath The result is a powerful exploration of the nature of death and the complexities arising from the globalization of biomedical expertise and ethics around the world

HIV/AIDS and the Social Consequences of Untamed Biomedicine Graham Fordham, 2014-11-13 Drawing on the case of HIV AIDS in Thailand this book examines how anthropological and other interpretative social science research has been utilized in modeling the AIDS epidemic and in the design and implementation of interventions It argues that much social science research has been complicit with the forces that generated the epidemic and with the social control agendas of the state and that as such it has increased the weight of structural violence bearing upon the afflicted The book also questions claims of Thai AIDS control success arguing that these can only be made at the cost of excluding categories such as intravenous drug users the incarcerated and homosexuals who continue to experience extraordinarily high levels of levels of HIV infection Considered deviant and undeserving these persons have deliberately been excluded from harm reduction programs Overall this work argues for the untapped potential of anthropological research in the health field a confident anthropology rooted in ethnography and a critical reflexivity Crucially it argues that in context of interdisciplinary collaborations anthropological research must refuse relegation to the status of an adjunct discipline and must be free epistemologically and methodologically from the universalizing assumptions and practices of biomedicine

Finding Their Voice Charles Keyes, 2014-01-05 The rural Lao speaking people of northeastern Thailand constitute over a third of the entire population of Thailand Over the last century this ethnically separate community has evolved from a traditional peasantry into cosmopolitan villagers who are actively shaping Thai politics Eminent anthropologist Charles Keyes traces this evolution in detail beginning with the failure of a Buddhist millenarian uprising in 1901 and concluding with the successful election of the Thai Rak Thai Pheu Thai Party in the 2000s In the intervening century rural northeasterners have become more educated and prosperous and they have gained a sophisticated

understanding of the world and of their position in it as Thai citizens Although northeasterners have often been thwarted in their efforts to press government agencies to redress their grievances they have rejected radical revolutionary efforts to transform the Thai political system Instead they have looked to parliamentary democracy as the system in which they can make their voices heard As the country engages with the processes of democracy the Pheu Thai Party and the Red Shirt movement appear to have established the people of northeastern Thailand as an authentic voice in the nation's political landscape Highlights Traces the evolution of a marginalized peasantry into a significant political force in Thai society Examines the disjunction between the urban middle class negative perspectives on the northeastern Thai rural population and real characteristics of that population Highlights the different views of political authority and legitimacy in Thailand that have contributed to the twenty first century crisis in the Thai political order What Others Are Saying Finding Their Voice by anthropologist Charles Keyes is a culmination of decades of careful ethnography consistently combined with an astute political analysis and sense of history Reminiscent of Eugen Weber's classic Peasants into Frenchmen Keyes's book shows that the people of Isan have become the makers and undoers of governments and are more firmly wedded to the modern notion of parliamentary democracy than are the refined urban elites This book has as much to say about the polarized politics of Thailand as it does about the rich culture and history of Isan Philip Hirsch University of Sydney World Christianity, 2020-12-15 World Christianity publications proliferate but the issue of methodology has received little attention World Christianity Methodological Considerations addresses this lacuna and explores the methodological ramifications of the World Christianity turn In twelve chapters scholars from various academic backgrounds anthropology religious studies history missiology intercultural studies theology and patristics as well as of multiple cultural and national belongings investigate methodological issues e.g. methods use of sources choosing a unit of analysis terminology conceptual categories relevant to World Christianity debates In a closing chapter the editors Frederiks and Nagy converge the findings and sketch the outlines of what they coin as a World Christianity approach a multidisciplinary and multiple perspective approach to study Christianity's plurality and diversity in past and present **Temporal Explorations in the Anthropology of Religion** Diana Espirito Santo, Ruy Blanes, 2025-03-27 How do people make sense of their past and look forward into their future through practices religious spiritual or otherwise in places of both modernity and political trauma This volume investigates how political social and individual temporal and historical horizons are generated and reformulated in relation to embodied material and ideological contexts It also considers how this history making projects itself onto imagined futures or alternative historical lines creating temporal continuities and discontinuities This book presents an innovative perspective on the relationship between past and the future namely one that shifts the perspective from pure history or pure anthropology to the anthropology of history Religious and spiritual engagements are fundamental to this exercise especially ones that have emerged in times of crisis because they provide conceptual platforms from which the past and the present connect directly to

the future and its imagined horizons Utilising chapters and case studies drawn from Europe Latin America Africa and Asia this book shows that the experience of time including temporal plasticity emerges from social formations that are cosmological at heart These include prophetic and messianic thinking conversion experiences and narratives spirit possession religions and the mythical and symbolic dimensions of materialities and memory This research demonstrates that ideas of cyclicity repetition and other temporal forms are fundamental as acts of ordering human experience as well as in other more modern forms of cosmology teleological theories of advancement and development and even post apocalyptic economic and social realities
