Mediterranean Diasporas Politics And Ideas In The Long 19th Century:

Mediterranean Diasporas Maurizio Isabella, Konstantina Zanou, 2016 Mediterranean Diasporas looks at the relationship between displacement and the circulation of ideas within and from the Mediterranean basin in the long 19th century In bringing together leading historians working on Southern Europe the Balkans and the Ottoman Empire for the first time it builds bridges across national historiographies raises a number of comparative questions and unveils unexplored intellectual connections and ideological formulations The book shows that in the so called age of nationalism the idea of the nation state was by no means dominant as displaced intellectuals and migrant communities developed notions of double national affiliations imperial patriotism and liberal imperialism By adopting the Mediterranean as a framework of analysis the collection offers a fresh contribution to the growing field of transnational and global intellectual history revising the genealogy of 19th century nationalism and liberalism and reveals new perspectives on the intellectual dynamics of the age of revolutions From publisher's website

The Greek Revolution in the Age of Revolutions (1776-1848) Paschalis M. Kitromilides, 2021-09-09 The Greek Revolution in the Age of Revolutions 1776 1848 brings together twenty one scholars and a host of original ideas revisionist arguments and new information to mark the bicentennial of the Greek Revolution of 1821 The purpose of this

volume is to demonstrate the significance of the Greek liberation struggle to international history and to highlight how it was a turning point that signalled the revival of revolution in Europe after the defeat of the French Revolution in 1815. It argues that the sacrifices of rebellious Greeks paved the way for other resistance movements in European politics culminating in the spring of European peoples in 1848. Richly researched and innovative in approach, this volume also considers the diplomatic and transnational aspects of the insurrection and examines hitherto unexplored dimensions of revolutionary change in the Greek world. This book will appeal to scholars and students of the Age of Revolution as well as those interested in comparative and transnational history, political theory and constitutional law.

A Modern History of European Cities

Rosemary Wakeman, 2020-01-23. Rosemary Wakeman's original survey text comprehensively explores modern European urban history from 1815 to the present day. It provides a journey to cities and towns across the continent in search of the patterns of development that have shaped the urban landscape as indelibly European. The focus is on the built environment, the social and cultural transformations that mark the patterns of continuity and change and the transition to modern urban society. Including over 60 images that serve to illuminate the analysis, the book examines whether there is a European city and if so what are its characteristics. Wakeman offers an interdisciplinary approach that incorporates concepts from cultural and postcolonial studies as well as urban geography and provides full coverage of urban society not only in western Europe but also in eastern and southern Europe using various cities and city types to inform the discussion. The book provides detailed coverage of the often neglected urbanization post 1945 which allows us to more clearly understand the modernizing arc Europe has followed over the last two centuries.

Who Saved the Parthenon? William St Clair, 2022-05-26. In this magisterial book, William St Clair unfolds the history of the Parthenon throughout the modern era to the present day with special emphasis on the period before, during and after the Greek War of Independence of 1821-32. Focusing particularly on the question of who saved the Parthenon from destruction during this conflict with the help of documents that shed a new light on this enduring question, he explores the contributions made by the Philhellenes, Ancient Athenians, Ottomans and the Great Powers. Marshalling a vast amount of primary evidence, much of it previously unexamined and published here for the first time, St Clair rigorously explores the multiple ways in which the Parthenon has served both as a cultural icon onto which meanings are projected and as a symbol of particular national, religious and racial identities as well as how it illuminates larger questions about the uses of built heritage. This book has a companion volume with the classical Parthenon as its main focus which offers new ways of recovering the monument and its meanings in ancient times. St Clair builds on the success of his classic text *The Reading Nation in the Romantic Period* to present this rich and authoritative account of the Parthenon's presentation and reception throughout history. With weighty implications for the present life of the Parthenon, it is itself a monumental contribution to accounts of the Greek Revolution, to classical studies and to intellectual history.

Xenocracy Sakis Gekas, 2016-12-01. Of the many European territorial reconfigurations that followed the wars of the early nineteenth

century the Ionian State remains among the least understood Xenocracy offers a much needed account of the region during its half century as a Protectorate of Great Britain a period that embodied all of the contradictions of British colonialism A middle class of merchants lawyers and state officials embraced and promoted a liberal modernization project Yet despite the improvements experienced by many Ionians the deterioration of state finances led to divisions along class lines and presented a significant threat to social stability Sakis Gekas shows that the impasse engendered dependency upon and ambivalence toward Western Europe anticipating the neocolonial condition with which the Greek nation struggles even today
