The Routledge Companion to Migration Literature Gigi Adair, Rebecca

Fasselt, Carly McLaughlin, 2024-07-30 The Routledge Companion to Migration Literature offers a comprehensive survey of an increasingly important field. It demonstrates the influence of the age of migration on literature and showcases the role of literature in shaping socio-political debates and creating knowledge about the migratory trajectories, lives, and experiences that have shaped the post-1989 world. The contributors examine a broad range of literary texts and critical approaches that cover the spectrum between voluntary and forced migration. In doing so, they reflect the shift in recent years from the author-centric study of migrant writing to a more inclusive conception of migration literature. The book contains sections on key terms and critical approaches in the field, important genres of migration literature, a range of forms and trajectories of migration with a particular focus on the global South, and on migration literature's relevance in social contexts outside the academy. Its range of scholarly voices on literature from different geographical contexts and in different languages is central to its call for and contribution to a pluriversal turn in literary migration studies in future scholarship. This Companion will be of particular interest to scholars working on contemporary migration literature, and it also offers an introduction to new students and scholars from other fields. Chapter 15 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-NonCommercial-NoDerivatives (CC BY-NC-ND) 4.0 license.

 gestures such as sending a Get Well card may not be instrumentally effective they do exert an intrinsically affective force on
 a field of social relations From liking sharing posting or swiping to watching a TED Talk or wearing an I Voted sticker such
 gestures operate as much through affective registers as they do through overt symbolic action Ingraham demonstrates that
 gestures of concern are central to establishing the necessary conditions for larger social or political change because they
 give the everyday aesthetic and rhetorical practices of public life the capacity to attain some socially legible momentum
 Rather than supporting the notion that vociferous public communication is the best means for political and social change
 Ingraham advances the idea that concerned gestures can help to build the affective communities that orient us to one
 another with an imaginable future in mind Ultimately he shows how acts that many may consider trivial or banal are integral
 to establishing those background conditions capable of fostering more inclusive social or political change **School**
