Stafford knows all too well how important an explorer's kit can be and this brilliant book gives great insight into the role it plays. Sir Ranulph Fiennes. In this unique and enthralling book, explorer and survivalist Ed Stafford curates 25 great expeditions through the lens of the kit these remarkable explorers took with them. In an environment where lack of preparation could mean certain death, the equipment carried, ridden, and sailed into uncharted territories could mean the success or failure of an expedition. Was it simply a case of better provisions and preparation that helped Amundsen beat Scott to the South Pole? And how has the equipment taken to Everest changed since Hillary's first ascent? Through carefully curated photographs and specially commissioned illustrations, we can see at a glance the scale, style, and complexity of the items taken into the unknown by the greatest explorers of all time and the impact each item had on their journey. How it potentially saved a life or was purely for comfort or entertainment, and how these objects of survival have evolved and adapted as science advances, and we plunge further into the extremes. Conquering fears and mountains, adversity, and wild jungles, each item these explorers flew, pulled, or hauled played a crucial role in their ambitious and dangerous missions to find out a little more about our world. Through each of these objects, we can gain a better understanding of ourselves. Get an intimate view of these and more amazing expeditions: Roald Amundsen's race to the Pole, Norwegian expedition, snowshoes, Primus stove, piano, violin, gramophone, Amelia Earhart, first woman to fly solo across the Atlantic Ocean, Bendix radio, direction finder, parachutes, emergency life raft, rouge, Tim Slessor, first overland from London to Singapore, machetes, crowbar, typewriter, Remington, dry shaver, tea, Nellie Bly, around the world in 72 days, Mumm, champagne, accordion, silk, waterproof wrap, dark gloves. *The Cultivator & Country Gentleman*, 1868.
