Smart Home Compare Open Now:

Software Engineering Perspectives in Intelligent Systems Radek Silhavy, Petr Silhavy, Zdenka Prokopova, 2020-12-15
This book constitutes the refereed proceedings of the 4th Computational Methods in Systems and Software 2020 CoMeSySo 2020 proceedings. Software engineering, computer science, and artificial intelligence are crucial topics for the research within an intelligent systems problem domain. The CoMeSySo 2020 conference is breaking the barriers being held online. CoMeSySo 2020 intends to provide an international forum for the discussion of the latest high quality research results. **The Smarthome Book** Andrew Howe, Technology is playing an increasingly more important part in our homes as well as our day to day lives. Get this simple to read guide to be introduced to structured wiring and smarthome concepts. It will not only take you through the requirements necessary to implement these upgrades but also provide a long list of inspirational and useful ideas to help make your smarthome upgrade not only a reality but fun. Through the chapters of this book we cover the various topics and components which will provide an insight into upgrading your home and making it smart. Considering a renovation or a new build. Then look no further as this will detail the basics of home cinema, whole house audio and video systems, security with remote monitoring, energy efficiency, and how best to set up your data network, all wrapped up in an easy to read format with easily laid out diagrams and a glossary of terms and links at the end to further your quest. Consider how long people spend deciding what flooring to lay down or what tiles to place in the kitchen or bathroom. Now consider how long people spend on what type of cabling will allow them to have that cool minimalist look in their renovation. Those hidden wires, the intelligent lighting, the surround sound, the energy efficient heating. Read this book before speaking to your electrician or installer. Save yourself time and money by being prepared. **Supportive Smart Homes** Frank Knoefel, Bruce Wallace, Neil Thomas, Heidi Sveistrup, Rafik Goubran, Christine L. Laurin, 2023-09-23. Significant health industry human resource needs increase the reliance on family and friends to support older adults hoping to age in place. This book explores how recent improvements in integrated home technologies have the potential to address those challenges. The book considers how embedded home sensors can be used to monitor the health and wellbeing of older adults and how that can be used to assist with supporting safety and well-being. The content is designed to help multiple stakeholders in the supportive smart home space to better understand the complexity of this field and the need for transdisciplinary collaboration. These stakeholders include the older adults who will benefit from supportive smart home technology, informal and formal caregivers, and healthcare professionals concerned about the older adult's well-being, researchers from multiple disciplines in the supportive smart home area, and their funders, companies looking to develop solutions and services or expand their offerings, policy makers who want to ensure privacy and equity in access, and a successful integration of these technologies into the evolving health and social services sectors, and students, the future leaders in AgeTech. Overall, the intent of the book is to inspire engineers, computer scientists, industrial designers, clinicians, and healthcare providers, social scientists, students, policy

makers and older adults and their caregivers to collaborate in advancing the supportive smart home space to develop more options for aging in place
