The Social Worlds of Nineteenth-Century Chamber Music
 Marie Sumner Lott, 2015-06-15 Music played an important role in the social life of nineteenth-century Europe, and music in the home provided a convenient way to entertain and communicate among friends and colleagues. String chamber music, in particular, fostered social interactions that helped build communities within communities. Marie Sumner Lott examines the music available to musical consumers in the nineteenth century and what that music tells us about their tastes, priorities, and activities. Her social history of chamber music performance places the works of canonic composers such as Schubert, Brahms, and Dvořák in relation to lesser-known but influential peers. The book explores the dynamic relationships among the active agents involved in the creation of Romantic music and shows how each influenced the others' choices in a rich collaborative environment. In addition to documenting the ways companies acquired and marketed sheet music, Sumner Lott reveals how the publication and performance of chamber music differed from that of ephemeral piano and song genres or more monumental orchestral and operatic works. Several distinct niche markets existed within the audience for chamber music, and composers created new musical works for their use and enjoyment. Insightful and groundbreaking, *The Social Worlds of Nineteenth-Century Chamber Music* revises prevailing views of middle-class influence on nineteenth-century musical style and presents new methods for interpreting the meanings of musical works for musicians both past and present.

 William Kinderman, Joseph E. Jones, 2009 Studies of the genesis of musical, literary, and theatrical works. Not only the final outcome but the process of creative endeavor has long attracted attention in various artistic disciplines, but only recently has the potential of such research been seriously explored. The term

genetic criticism or critique *g n tique* relates not to the field of genetics but to the genesis of works of art as studied in a broad and inclusive context The essays in this volume explore aspects of genetic criticism in an interdisciplinary context emphasizing music literature and theater A common thread pertains to the essential continuity between a work and its genesis This volume brings together essays from leading scholars on subjects ranging from biblical scholarship to Samuel Beckett and from Beethoven's *Eroica* Symphony to very recent musical compositions Contributors Nicolas Donin Daniel Ferrer Alan Gosman R B Graves Joseph E Jones William Kinderman Jean Louis Lebrave Lewis Lockwood Geert Lernout Peter McCallum Armine Kotin Mortimer and James L Zychowicz William Kinderman is Professor of Musicology at the University of Illinois at Urbana Champaign Joseph E Jones is visiting Assistant Professor of Musicology at the University of Illinois at Urbana Champaign
