Service Breakthroughs where Harvard Business School experts unveil innovative service management techniques
breakthrough leadership insights and the self reinforcing service cycle to elevate customer satisfaction retention and
profitability in competitive industries What Do Citicorp UPS and Marriott have in common They are breakthrough service
providers firms that changed the rules of the game in their respective industries by consistently meeting or exceeding
customer needs and expectations To find out how these companies do it service management experts James Heskett Earl
Sasser and Christopher Hart put the question to the chief executive officers of fifteen of America s leading service firms
attending a workshop at the Harvard Business School Breakthrough leaders they discovered think very differently about
their businesses than their competitors Now in Service Breakthroughs based upon five years of exhaustive research in

fourteen service industries Heskett Sasser and Hart show exactly what enables one or two companies in each industry to constantly set new standards for quality and value that force competitors to adapt or fail At the heart of breakthrough performance the authors contend is a sometimes intuitive but thorough understanding of the self reinforcing service cycle that replaces traditional management of trade offs The cycle is a paradigm derived from the research results suggesting direct links between heightened customer satisfaction increased customer retention augmented sales and profit improved quality and productivity greater service value per unit of cost improved satisfaction of service providers increased employee retention and further heightened customer satisfaction With detailed examples and dramatic case studies of Mark Twain Bancshares American Airlines Florida Power and Light Federal Express McDonald s and many other companies Heskett Sasser and Hart show how this self reinforcing cycle of behavior differentiates breakthrough leaders from their merely good competitors The authors describe how breakthrough managers develop counterintuitive even contrarian strategic service visions These companies define their service concept in terms of results achieved for customers rather than services performed They target market segments by focusing on psychographics how customers think and behave instead of demographics And instead of viewing a service delivery system as a facility where the service is produced and sold breakthrough firms see it as an opportunity to enhance the quality of the service These profound differences in thought and action have brought spectacular results For managers who wish to set the pace in their service industries Service Breakthroughs is essential reading **AARCTimes** ,2003 Information Retrieval: A Health Care Perspective William R.
