Nice Book National Procedural Autonomy Revisited Administrative:

National Procedural Autonomy Revisited Franziska Grashof, 2016 National Procedural Autonomy Revisited reconsiders one of the leading principles of European administrative law the principle of national procedural autonomy The book shows that due to different national administrative litigation rules common European rules are enforced in a fragmented manner This is illustrated with the example of the judicial enforcement of Directive 2011/92/EU on environmental impact assessment for projects in the legal systems of Germany England and the Netherlands Under the same rule of EU law litigants are treated procedurally unequal As well there are different enforcement chances and judges come to different conclusions not because of diverging interpretations of the law but because of different administrative litigation rules Subsequently the book discusses whether it is necessary desirable and possible to develop common rules of administrative litigation in environmental matters in the EU It is argued that by means of the instruments which are available in the EU specifically legislation jurisprudence and comparative scholarship a more precise common standard for administrative litigation in environmental matters should be created so that the principle is *ubi ius europaeum ibi remedium europaeum* Librarians ebook available Series European Administrative Law Vol 10 Subject EU Law Environmental Law

Law and Policy Eugenia Caracciolo di Torella, Annick Masselot, 2020-02-28 This book explores the emerging engagement of
EU law with care and carers The book argues that the regulation of care by the EU is crucial because it enables the
development of a broad range of policies It contributes to the sustainability of society and ultimately it enables individuals to
flourish Yet to date the EU approach to regulating the caring relationship remains piecemeal and lacks the underpinning of a
cohesive strategy Against this backdrop this book argues that the EU can and must take leadership in this area by setting
principles and standards in accordance with the values of the treaty in particular gender equality human dignity solidarity
and well being The book further makes a case for a stronger protection for carers who should not only be protected against
discrimination but should also be supported valued and put in a position to make choices and lead full lives In order to
achieve this a proactive approach to rebalancing the relationship between paid and unpaid work is necessary Ultimately the
book puts forward a series of legal and policy recommendations for a holistic approach to care in the EU **Bulletin of the**
