Spire, 2023-06-20

Government Can Deliver presents a framework for government agency performance improvement designed to change an inefficient culture and drive operational excellence. It outlines how government leaders can drive such change and most importantly it presents a proven approach for creating an environment that will affect positive change. This framework a set of practical attributes and implementable best practices tailored for government agencies is based on real world experiences in which government did deliver. There are examples in each chapter of agencies that implemented elements of this framework and the resulting impact on agencies operational performance. And while mainly using examples from large federal government agencies this book can aid those in all levels of government and differing agency sizes. In writing this book Richard endeavored to create a practical guide on transforming government agencies that can benefit all readers whether you have made government service your life study government as an academician or student or are simply a concerned citizen. After establishing the need for improved government operations the book presents attributes and best practices for eight solution functions. When properly addressed each of these functions can individually and collectively significantly improve an agency's performance. The examples and arguments can help agency leaders justify implementing the necessary attributes and best practices to improve their agency's performance. The final chapter provides recommendations on how a government agency can develop a transformation plan to incrementally implement the attributes and best practices for each of these eight functions. Richard has seen first hand the amazing things government agencies can accomplish when they have experienced capable leaders adopt best practices tailored for government and appropriately leverage technology to support improved operations. Change is hard but through government leaders and employees efforts focused on implementing the right changes agencies can significantly improve their operational performance. Under the right conditions magic can and does happen.

*A Comprehensive Tax Guide For Clergy 2014 for 2013 Tax Returns* Ricky E. Carr, 2013-11-06

In one high profile case a couple's substantial contributions to a church were denied tax deductibility by the Internal Revenue Service. The couple appealed the IRS decision. The Court upheld the IRS's denial of significant charitable contribution deductions. There was no disputing that the couple made the contributions or that the contributions were made to qualified 501 c 3 organizations or even that the value of the contributions was at least as much as the couple had reported. However the couple failed to comply in some way with substantiation requirements of the Tax Code and Regulations so their contribution deductions were denied. *Durden v Commissioner* T C Memo 2012 140 May 17 2012 involved a Texas couple who claimed a deduction of 25 171 for cash contributions to their church in 2007. The

church sent a letter of acknowledgement in January of 2008 but that receipt lacked a statement of whether any goods or services were provided to the Durdens in exchange for their contributions In 2009 the IRS sent a notice to the couple disallowing their charitable contribution deduction for 2007 The couple obtained a second letter from the church which did include the proper statements Nevertheless the IRS denied the deduction because the Durdens failed to get a proper receipt from their church In the IRS s view the first acknowledgement was lacking a statement of whether goods or services were provided by the church and the second acknowledgement was not a contemporaneous receipt because it was not received by the Durdens by the due date for filing their original return for the year Because the Durdens did not have proper receipts the judge agreed with the IRS that the Durdens failed to comply with the substantiation requirements of IRC 170 f 8 This case should represent a reminder that churches and charities need to supply donors with proper receipts This case makes it clear that ultimately it is the taxpayer s responsibility to comply with the requirements for disclosure and substantiation in order to take charitable contribution deductions for gifts they have made However churches and charitable organizations should be familiar with the reporting and substantiation requirements so that they can help their donors comply Our goal is to empower the clergy with the awareness and strategies they need to avoid tax pitfalls so they are able to remain focused on fulfilling the Great Commission keywords Comprehensive IRS Tax Return Financial Tax Guide Clergy Ministers Preparation Strategies Returns Maximize **Tax Guide 2018 - Federal Income Tax For Individuals: Publication 17 (Includes Form 1040 - Tax Return for 2019) (Clarifications on Maximum Capital Gain Rate & Chapter 20) - Updated Jan 16, 2020 U.S.**
