conditions for children to enter into the optimal state for learning known as flow or more colloquially as being in the zone. Practical activities and classroom resources encourage deeper engagement and motivation among all students regardless of their backgrounds or neurodiversity whilst simultaneously cultivating a love for learning, critical thinking and creativity. Informed by neuroscience, areas covered include learning and development, teaching for flow, special educational needs, SEND, outdoor learning and Forest School, homework and integrating flow into the curriculum. The book suggests a complete overhaul of the current curriculum to place emphasis on a more child-centred and engaging learning experience. Focusing on curriculum design and lesson planning and assessment, the author demonstrates how this inclusive approach can be applied practically and how teachers can have autonomy over curriculum content driven by the interests of their pupils. *Teaching for Flow* is an essential resource for any classroom teacher or school leader looking to develop a more active, investigatory and child-centred approach to learning in their school that allows children to grow and flourish.

Science-Driven Kids T.S. Avini, 2025-08-01. *Science Driven Kids* dives into the essential integration of STEM (Science, Technology, Engineering and Mathematics) into the daily lives of children. This guide equips parents and educators with strategies to foster genuine love for STEM in children, molding agile problem solvers and innovative thinkers. Discover simple experiments using household items that make science engaging and accessible for all. Transform your kitchen into a chemistry lab where daily cooking becomes a platform for thrilling scientific exploration. Inspire a love of engineering through tailored challenges that teach design and problem-solving skills. In an era where technology is intertwined with daily activities, guide your child through coding basics, digital literacy and robotic projects that stimulate creativity and technical skills. Encourage a blend of artistic expression and analytical thought by integrating the arts with scientific inquiry. Whether your aim is to motivate a future innovator or simply enrich your child's educational experience, *Science Driven Kids* is your roadmap to embedding STEM at the heart of your home. Begin a journey today that cultivates curiosity, creativity and a lifelong passion for learning in your child.
