Law and Technology Nanci K. Carr, 2024-09-26 Technology is an important part of our everyday lives Whether we ask Alexa to start the coffee machine or check our phones for the traffic report we increasingly interact with technology As much as we may enjoy and rely upon technology it is not without its challenges including the inability of the law to keep pace with technological developments and the ethical issues that arise For example tort law is impacted by technology the proliferation of drones requires a new look at the law of trespass and video Zoom meetings can impose direct liability on employers for example Social media supports an increasing share of all advertising and endorsements and is subject to regulation of which influencers are often not aware Global advertising expenditures on various internet and social media platforms also drives the need for a change in right of publicity law In the United States the right of publicity is governed by state rather than federal law so there is no uniform approach One part of the book includes a survey of the law of each US state and proposes a new federal statute Although most of the examples are drawn from the US the issues raised are fully international in scope and relevance This book will appeal to legal practitioners trying to manage new technology issues facing their clients academics teaching students how the law is changing and needs to continue to change as technology develops and teachers and researchers in business and management schools needing to address technology and governance issues

Smart Rivals Feng Zhu, Bonnie Yining Cao, 2024-08-20 A fresh research based look at how companies can better compete on their own terms with tech giants from a Harvard Business School professor and a former Bloomberg journalist Companies are fighting the wrong battle The consensus has been to learn the best practices from tech giants and then imitate them But new paths for growth aren't created by imitation they're forged by radical differentiation In *Smart Rivals* Harvard Business School professor Feng Zhu and former Bloomberg journalist Bonnie Yining Cao show business leaders how to create competitive advantages by offering product features and benefits that tech giants and other competitors cannot match in the digital Age Taking readers on a global journey Zhu and Cao showcase a variety of companies including Domino's Nike and Sephora and fascinating case studies such as Belle the leading women's footwear retailer in China EbonyLife Nigeria's top media conglomerate and Telepass Italy's popular electronic toll payment service Through these diverse examples they illustrate how companies identify their path for growth in the digital age by leveraging their unique capabilities Drawing on original research and insights gleaned from leaders in a wide range of industries *Smart Rivals* is a blueprint for uncovering your company's hidden strengths It will help you spark innovative solutions and capabilities including new products services strategies and advantages that mere imitation could never provide
