Congress. Senate. Committee on Appropriations. Subcommittee on Departments of Labor, Health and Human Services, Education, and Related Agencies, 1983 Creating a Service Culture in Higher Education Administration Mario C. Martinez, Brandy Smith, Katie Humphreys, 2023-07-03 Service delivery is part and parcel of every higher education professional s job both to improve service to students and to each other as internal customers Until now higher education professionals have had to rely for their professional development on books and training designed for the business sector This book is the first to specifically

address the needs of higher education professionals across a wide range of administrative functions within college and university environments. It is designed for administrative staff and management ranging from professionals working in centralized functions such as student affairs and enrollment management to those working as advisors or in career centers whether in community colleges, four-year institutions or for-profit institutions. Each chapter applies customer service principles to scenarios that are relevant to higher education. The book begins by engaging the reader to define service and identify the external and internal customers who are recipients of that service. It then maps customer interactions into a series of steps and offers departments and individuals a tool to maximize the customer experience. Additional chapters address customer expectations, creating a service culture on your campus, and managerial influences on staff service delivery. *Creating a Service Culture in Higher Education Administration* is a complementary book to the online customer service and management training resources at softskillspros.com. **Black Enterprise**, 1986-07. BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals, entrepreneurs, and corporate executives. Every month BLACK ENTERPRISE delivers timely useful information on careers, small business, and personal finance. *The Corporatization of Student Affairs* Daniel K. Cairo, Victoria Cabal, 2021-11-03. This volume explores the tensions between the student affairs foundation of holistic student development and the changing culture of corporatization. While there is ample evidence of neoliberalism in the academic affairs of higher education, there is very little to no research to understand how neoliberalism is driving the corporatization of student affairs. This book argues that understanding neoliberalism in student affairs is crucial to student success and the student experience. The authors provide contextualized examples for understanding our positionality within the neoliberal system as well as practical recommendations on resisting market values as common sense, thereby helping to preserve the profession and to imagine a new one centered on people, equity, and justice.
