Gerontopsychologie Wolf-D. Oswald, Gerald Gatterer, Ulrich M. Fleischmann, 2008-06-21 Zu erwartende demografische Veränderungen sprechen eine eindeutige Sprache Wer heute nicht an sich selber arbeitet und deshalb morgen Hilfe und Pflege von anderen erwartet wird große Probleme bekommen Die Psychologie des höheren Lebensalters wird immer mehr zum Thema unserer Gesellschaft Die zweite Auflage liefert umfassend und aktualisiert grundlegende Einblicke in psychologische Altersthemen wie Denken und Gedächtnis Langlebigkeit Prävention Erweitert wurde sie durch Aspekte wie Angehörigenberatung und Themen rund um Pflege Tod und Sterben Die Meinung alt ist gleich krank wird gründlich widerlegt Kognitive Veränderungen im Gedächtnisbereich sowie Alter und Gesundheit sind von der individuellen Biografie von sozioökonomischen Bedingungen von biologischen Veränderungen und vom eigenen Verhalten abhängig In diesem Sinne lautet die gerontopsychologische Botschaft für ein erfolgreiches und gesundes Altern use it or lose it Gebräuche täglich deinen Kopf und deinen Körper oder verliere

Profiles of Social Research Morton M. Hunt, 1986-06-06 This splendid introduction to social research describes an area of scientific investigation that profoundly influences our daily lives and thoughts but about which most of us know very little We can picture a research chemist at work white coated and surrounded by beakers and test tubes but what is the nature of social research For interested general readers and particularly for students entering the various social science fields Morton Hunt paints an immensely informative and accessible portrait He begins with a lucid overview of the important varieties of social research describing their advantages and limitations Against this background Hunt then details five remarkable case histories eyewitness accounts of significant recent episodes in social research Woven skillfully through each narrative are explorations of the basic methodological practical moral and political issues raised by social research The story of a noteworthy series of sociopsychological experiments on teamwork for example enables Hunt to weigh the merits of using a laboratory setting to study social behavior and the ethics of deceiving human subjects In similar fashion Hunt depicts a historic cross sectional survey on segregated schooling a complex attempt to measure the impact of welfare programs a real world experiment with guaranteed annual incomes and a path breaking study of human aging that followed its subjects for a generation This engaging and intelligent book will give readers a new understanding of the breadth and richness of social research as well as an informed appreciation of its significance for their lives

The Berlin Aging Study Paul B. Baltes, Karl Ulrich Mayer, 2001-03-19 The present and future of our society are shaped by an ever increasing proportion of old and very old people The Berlin Aging Study is one of the largest interdisciplinary efforts to explore old age and aging Unique aspects of the Berlin Aging Study are the spectrum of scientific disciplines involved the range of discipline specific and interdisciplinary research topics the focus on very old age 70 to over 100 years and the empirical reference to a representative heterogeneous urban population The study's first cross sectional findings on intellectual abilities self and personality social relationships physical health functional capacity medical treatment mental disorders such as depression

and dementia socioeconomic conditions activities everyday competence subjective well being and gender differences are reported in depth in this book The study was carried out in the context of the Berlin Brandenburg Academy of Sciences study group on Aging and Social Development The authors primarily conduct their research at the Berlin Max Planck Institute for Human Development the Free University of Berlin and the Humboldt University Berlin

Cutler,P.K. Narang,2013-11-11 Clinical trials are the most definitive tool for evaluation of the applicability of clinical investigations The main objective of clinical investigations is to assess the potential value of a therapeutic entity in the treatment or prophylaxis of a disease or a condition It is also deemed necessary at this stage to obtain information regarding the undesirable side effects associated risks and their interrelationship with clinical assessments Most of these clinical investigations conform in some form or fashion to the guidelines adopted by the Food and Drug Administration FDA for a given class of compounds Clinical investigations in the past have not included specific studies in special or subpopulations e.g the elderly Because of an ever increasing elderly population newer policies for clinical investigations are now being debated with the recognition of enhanced drug sensitivity in this special population This key research activity can lead not only to improved health care in the elderly but also to control of its costs **Modern Approaches to the Dementias, Part 2** F. Clifford Rose,1985-07-22 The Psychology of Control and Aging Margret M. Baltes,Paul B. Baltes,2014-08-01 Originally published in 1986 the central topic of this book is the analysis and application of control related beliefs and behaviours for theory and practice in the psychology of aging The volume was written for two specific interrelated purposes aimed at cross fertilization between the psychology of control and the field of gerontology The first purpose was to summarise available research and theory on the psychology of control for researchers and professionals interested in gerontology at the time The second was to enrich the field of the psychology of control Current Catalog National Library of Medicine (U.S.),1982 First multi year cumulation covers six years 1965 70 **Growing Younger: How to Measure & Change Your Body's Age** Robert F.
