Communicating Science and Technology Through Online Video Bienvenido León, Michael Bourk, 2018-03-19 Online video's unique capacity to reach large audiences makes it a powerful tool to communicate science and technology to the general public. The outcome of the international research project Videonline, this book provides a unique insight into the key elements of online science videos such as narrative trends, production characteristics and issues of scientific rigor. It offers various methodological approaches: a literature review, content analysis and interviews and surveys of expert practitioners to provide information on how to maintain standards of rigour and technical quality in video production. **Resources in Education**, 2001-04 **ENC Focus**, 2001 **Promoting Active Learning through the Flipped Classroom Model** Keengwe, Jared, 2014-01-31 This book focuses on an in-depth assessment on strategies and instructional design practices appropriate for the flipped classroom model, highlighting the benefits, shortcomings, perceptions and academic results of the flipped classroom model. Provided by publisher. *Online Education* Anthony G. Picciano, 2018-07-17 Online Education is a comprehensive exploration of blended and fully online teaching platforms, addressing history, theory, research, planning and practice. As colleges, universities and schools around the world adopt large-scale technologies and traditional class models shift into seamless digitally interactive environments, critical insights are needed into the implications for administration and pedagogy. Written by a major contributor to the field, this book contextualizes online education in the past and present, before analyzing its fundamental changes to instruction, program integration, social interaction, content construction, networked media, policy and more. A provocative concluding chapter speculates on the future of education as the sector becomes increasingly dependent on learning technologies. Directory of Distance Learning Opportunities Modoc Press, Inc., 2003-02-28 This book provides an overview of current K-12 courses and programs offered in the United States as correspondence study or via such electronic delivery systems as satellite cable or the Internet. The Directory includes over 6 000 courses offered by 154 institutions or distance learning consortium members. Following an introduction that describes existing practices and delivery methods, the Directory offers three indexes: Subject Index of Courses Offered by Level, Course Level Index, Geographic Index. All information was supplied by the institutions. Entries include current contact information, a description of the institution and the courses offered, grade level and admission information, tuition and fee information, enrollment periods, delivery information, equipment requirements, credit and grading information, library services and accreditation. *The Wiley Handbook of Learning Technology* Nick Rushby, Dan Surry, 2016-02-23 The Wiley Handbook of Learning Technology is an authoritative and up-to-date survey of the fast-growing field of learning technology, from its foundational theories and practices to its challenges, trends and future developments. Offers an examination of learning technology that is equal parts theoretical and practical, covering both the technology of learning and the use of technology in learning. Individual chapters tackle timely and controversial subjects such as gaming and simulation, security, lifelong learning
