

This Tactical Manual (TM) is intended for training and operations for small tactical units. The TM utilizes a number of sources, including United States and British Army doctrine, mixed with training and operational best practices and lessons learned.

This TM is designed to support training and operations primarily for tactical elements no larger than platoon / troop strength. The TTPs laid out are ideal for special operations, light infantry and paramilitary tactical organizations. Accordingly, the TM focuses on squad and team operations. It does not focus on specific weapon systems, but rather on tactical principles utilizing generic direct fire small arms. Organizations with heavier support and indirect fire weapon systems will incorporate those in line with the tactical principles. This TM by itself will not act as a substitute for effective team training. It is designed to support training and subsequent operational activities.

Max Velocity Tactical offers live fire and force on force tactical training. Details at the website:

International State Building and Reconstruction Efforts Joachim Krause, Charles King Mallory IV, 2010-03-17 State Building Post conflict related efforts by the international community towards state re building and reconstruction of society and economy have become a more or less regular feature of international affairs since the early 1990s It seems that the demand for such international efforts is rather rising than diminishing All have in common that the establishment of sound state structures and liveable economies in a given state are considered by a sizeable and powerful group of states as something that is furthering international peace and stability The purpose of this book is to address the strategic and policy dimensions of these international state building and reconstruction efforts The chapters take up issues relating to the economic security related and institutional aspects The authors strike a balance and attempt to formulate recommendations

Nordic Approaches to Peace Operations Peter Viggo Jakobsen, 2006 A new examination of Nordic approaches to peace operations after the Cold War It shows how the Nordic countries Denmark Finland Norway and Sweden remain relevant for the study and practice of post Cold War peace operations This unique study is structured around eleven success conditions derived from an analysis of the lessons learned since the early 1990s ensuring that the results of the case studies are directly comparable These case studies are supplemented by an analysis of Nordics collective efforts to replace their old Cold War peacekeeping model with a new one that meets the requirements of the new era The overall conclusion is that the Nordics have succeeded in meeting the post Cold War requirements for success both individually and collectively and that a new effective model is in the making This book makes several important contributions to the literature on peace operations First it demolishes the widely held view that the Nordic countries remain a bastion of traditional Cold War peacekeeping with little relevance for contemporary operations Second it constitutes the first systematic overview of the reforms undertaken by the four Nordic countries since the end of the Cold War Third it fills a historical gap by providing a comprehensive analysis of the celebrated old Nordic Cold War model explaining how and why it developed and how it functioned Finally the analytical framework is a general tool which can be used to evaluate the approaches to peace operations employed by countries around the world This book will be of great interest to all students of peacekeeping peace studies security studies and IR in general

Peace Support Operations Eli Stamnes, 2020-09-29 Peace Support Operations Nordic Perspectives brings together Nordic academics working in the field of peace support operations broadly defined It contains a collection of articles that present different theoretical approaches to the study of peace support operations and contribute to enhance the knowledge of the Nordic countries participation in such operations Its case studies describe the development of peacekeeping forces from Norway Sweden Denmark and Finland in the face of evolving threats to world security over the past sixty years and how each country's reaction has differed The conflicts covered in this study include the Cold War the Balkan conflict the first Gulf War and the Malawian ethnic conflict Thus it constitutes a contribution to the academic field in both a theoretical and an

empirical sense This book was previously published as a special issue of *International Peacekeeping* [Handbook of Nordic Cooperation](#) Nina Græger, Ruth Hemstad, Peter Nedergaard, Peter Stadius, 2025-09-10 This illuminating Handbook explores transnational Nordic cooperation from a broad historical and political perspective It examines the entangled and variegated history of Nordic collaboration from early civil society initiatives to comprehensive official cooperation as well as responses to recent challenges such as defence and foreign policy
