Not Half No End Not Half No End:

Scatter 1 Geoffrey Bennington, 2016-05-02 What if political rhetoric is unavoidable an irreducible part of politics itself In contrast to the familiar denunciations of political horse trading grandstanding and corporate manipulation from those lamenting the crisis in liberal democracy this book argues that the politics of politics usually associated with rhetoric and sophistry is like it or not part of politics from the start Denunciations of the sorry state of current politics draw on a dogmatism and moralism that share an essentially metaphysical and Platonic ground Failure to deconstruct that ground generates a philosophically and politically debilitating selfrighteousness that this book attempts to understand and undermine After a detailed analysis of Foucault's influential late concept of parrhesia which is shown to be both philosophically and politically insufficient close readings of Heidegger Kierkegaard and Derrida trace complex relations between sophistry rhetoric and philosophy truth and untruth decision madness and stupidity in an exploration of the possibility of developing an affirmative thinking of politics that is not mortgaged to the metaphysics of presence It is suggested that Heidegger's complex accounts of truth and decision must indeed be read in close conjunction with his notorious Nazi commitments but nevertheless contain essential insights that many strident responses to those commitments ignore or repress Those insights are here developed via an ambitious account of Derrida's often misunderstood interruption of teleology into a deconstructive retrieval of the concept of dignity This lucid and often witty account of a crucial set of developments in twentieth century thought prepares the way for a more general re-reading of the possibilities of political philosophy that will be undertaken in Volume 2 of this work under the sign of an essential scatter that defines the political as such

Derrida Now John W. P. Phillips, 2016-03-11 For more than 30 years and until his death in 2004 Jacques Derrida remained one of the most influential contemporary philosophers It may be difficult to evaluate what forms his legacy will take in the future but *Derrida Now* provides some provocative suggestions Derrida's often controversial early reception was based on readings of his complex works published in journals and collected in books More recently attention has tended to focus on his later work which grew out of the seminars that he presented each year in France and the US The full texts of these seminars are now the subject of a major publication project to be produced over the next ten years *Derrida Now* presents contemporary articles based on or around the study of Derrida It provides a critical introduction to Derrida's complex and controversial thought offers careful analysis of some of his most important concepts and includes essays that address the major strands of his thought Derrida's influence reached not only into philosophy but also into other fields concerned with literature politics visual art law ecology psychoanalysis gender and sexuality and this book will appeal to readers in all these disciplines Contributors include Peggy Kamuf Geoff Bennington Nicholas Royle Roy Sellars Graham Allen and Irving Goh
