Anorexia Nervosa is a treatment manual that details an empirically supported and innovative treatment for this disorder. This book provides a detailed description of the theory and clinical practice of MFT AN. The treatment draws on the Maudsley Family Therapy for Anorexia Nervosa model as well as integrating other psychological and group frameworks. Part I details the theoretical concepts, MFT AN structure, content, and implementation, including clinically rich and detailed guidance on group facilitation, therapeutic technique, and troubleshooting when the group process encounters difficulties. Part III provides step-by-step instructions for the group activities in the initial four-day intensive workshop and for the subsequent follow-up days that occur over a further six to eight months. The book will serve as a practical guide for both experienced and new clinicians working with children and adolescents with eating disorders and their families in utilising multi-family therapy in their clinical practice.
